Allergy Medicine: International Journal of Allergy and Comorbidities

Official Journal of the Chinese Research Hospital Association

Publishes new research, reviews, and case studies in basic, clinical and translational medicine in allergy and related fields through a focus on comorbidity and multimorbidity, and a concentration on mechanisms, preventive measures, and treatment strategies. The journal aims to provide a professional platform for comprehensive, up-to-date, and in-depth understanding of allergy medicine.

Annals of Allergy, Asthma & Immunology

Official Journal of the American College of Allergy, Asthma & Immunology

Serves as an objective evidence-based forum for the allergy/immunology specialist to keep up to date on current clinical science (both research and practice-based) in the fields of allergy, asthma, and immunology. The journal provides clinical and research information readily applicable to clinicians and researchers. Each issue also provides accredited continuing medical education activities to enhance overall clinical proficiency.

Journal of Allergy and Hypersensitivity Diseases

Official publication of the Société française d'allergologie (French society of allergy)

Publishes on all aspects of allergy and immunology including clinical, educational, and translational research, associated with new technologies, epidemiology, public health and environmental aspects with the aim to support modern and traditional approaches and public health strategies to improve the care of patients with allergy, asthma and hypersensitivity. Journal topics cover the spectrum of conditions managed by allergists in clinical practice, including anaphylaxis; drug-related allergy; food and insect sting allergic and hypersensitivity conditions; allergic and hypersensitivity conditions affecting the eyes; skin and respiratory tract conditions; eosinophilic and mast cell disorders; epidemiological, environmental, mechanistic, and diagnostic research.

EDITOR-IN-CHIEF: Luciana Kase Tanno, MD, PhD, HDR

Allergy Journals 2024

Revue française d'allergologie

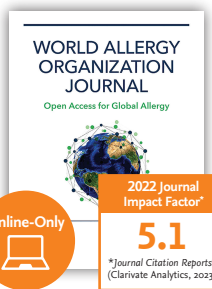

Official publication of the Société française d'allergologie (French society of allergy)

Disseminates initial and continuing medical education articles covering the various fields relating to allergology, and any information relevant to the daily practice of allergists. The journal publishes content adapted to the different levels of its readership: students and specialized physicians - allergists, dermatologists, pediatricians, pulmonologists, ophthalmologists, otorhinolaryngologists, internists and immunologists. Publishes in French and English.

EDITOR-IN-CHIEF: **Dr. François Lavaud, MD, PhD**

World Allergy Organization Journal

Official Journal of the World Allergy Organization

Publishes original mechanistic, translational, and clinical research on the topics of allergy, asthma, anaphylaxis, and clinical immunology, as well as reviews, guidelines, and position papers that contribute to the improvement of patient care. This includes research on the growth of allergy prevalence within the scope of single countries, country comparisons, and practical global issues and regulations, or threats to the allergy specialty as well as on current global problems in allergy, asthma, anaphylaxis, and immunology. Immunological consequences of climate change and the subsequent systematic transformations in food habits and their consequences for the allergy/immunology discipline are also of primary interest.

Allergy Journals 2024

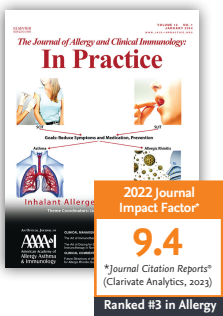

The Journal of Allergy and Clinical Immunology

Official Journal of the American Academy of Allergy, Asthma and Immunology

Publishes high-impact, cutting-edge clinical and translational research papers for allergists, immunologists, dermatologists, gastroenterologists, and other physicians and researchers interested in allergic diseases and clinical immunology. Articles cover asthma, food allergy, allergic rhinitis, atopic dermatitis, primary immune deficiencies, occupational and environmental allergies, and other allergic and immunologic diseases. The journal also includes clinical trials and mechanistic studies that report on novel therapies, insights into underlying mechanisms, and other discoveries that will inform our understanding of these diseases and ultimately improve the diagnosis and management of patients.

EDITOR-IN-CHIEF: **Zuhair K. Ballas, MD**

The Journal of Allergy and Clinical Immunology: In Practice

Official Journal of the American Academy of Allergy, Asthma and Immunology

Publishes clinically impactful articles on the spectrum of conditions treated by allergist-immunologists in their practice: food allergy, respiratory disorders (including asthma, allergic and nonallergic rhinitis/rhinoconjunctivitis, nasal polyps, chronic sinusitis, cough, chronic obstructive pulmonary disease (COPD), allergic bronchopulmonary aspergillosis (ABPA), and hypersensitivity pneumonitis), drug allergy, insect sting allergy, anaphylaxis, dermatologic disorders (including atopic dermatitis, contact dermatitis, urticaria, angioedema, and hereditary angioedema (HAE)), immunodeficiency, eosinophilic disorders, and mast cell disorders.

The Journal of Allergy and Clinical Immunology: Global

Official Journal of the American Academy of Allergy, Asthma and Immunology

JACI: Global is the Gold Open Access journal of the AAAAI Journals portfolio. In addition to providing a forum for authors mandated to publish fully open access as a condition of their funding, JACI: Global covers a wide spectrum of research, including translational and clinical research, basic and bench science, phase I/II clinical trials, population studies, as well as regionally relevant research conducted by allergy and immunology investigators. Geographic diversity is a hallmark of the Journal making it particularly appealing to authors working in Research4Life countries, with waivers or deep discounts of accepted Article Processing Charges (APCs) automatically applied.
