About the Conference

Welcome to the 7th Spatial Statistics conference, which will be held at NH Leeuwenhoorst, Noordwijk, The Netherlands, from 15-18 July 2025, under the theme At the Dawn of AI.

During the Spatial Statistics 2025 conference in Noordwijk, the Netherlands, specific attention will be given to the opportunities, including challenges to be addressed, that Artificial Intelligence (AI) opens up and how spatial statistics can be developed further with AI.

The latest developments in spatial statistics will be presented, emphasising their contributions at the dawn of AI, now and in the future. The optimal use of collected data, predicting in space and time, object recognition and segmentation, and transferability in the presence of spatial and temporal correlations are typical, but not exhaustive examples.

Comments from delegates of the 6th Spatial Statistics Conference

“High quality of content and well thought out schedule and time for discussion through on-site lunches with poster sessions.”

“Great atmosphere, very collaborative and collegial.”

“I got the opportunity to meet and interact with some renowned experts in spatial statistics whom I have read and referenced during my Ph.D. study.”

Conference Topics

Methods

- Spatial deep learning
- Spatial statistical learning
- Neural networks in space
- Large language models in space
- Natural language processing for spatial challenges
- Spatio/temporal modeling of points and objects
- Causality in space and time
- Modeling and predicting of extremes
- Space-time statistics: geostatistics, point patterns, estimation methods, large dimensions
- Discrete spatial variation
- Spatial and spatio/temporal variability and dependence
- Stochastic geometry, tessellation, point processes, random sets

Applications

- Environment: soil, water, atmosphere
- Interface of neural computing and spatial/spatio-temporal statistics
- Climate system modeling and observations
- Health e.g. epidemiology, geohealth and global health
- Spatially-explicit ecological models
- Plant and animal epidemiology
- Quantifying the spatial extent of hazards and risk
- Crime, poverty, liveability mapping

Sponsorship and Exhibition Information

Elsevier's extensive global network of physical scientists in academia, business and government is being targeted to generate a highly qualified audience from the **Spatial Statistics** community.

USE YOUR PRESENCE AT THE 6TH SPATIAL STATISTICS CONFERENCE:

- 1 Launch new products and highlight existing ones
- 2 Increase brand awareness and elevate your company profile in the mechanics of biomaterials and tissues community
- 3 Network with specialists, seek international partners and form new alliances
- 4 Increase visibility in focused markets
- 5 Communicate your message to a highly qualified scientific and expert community
- 6 Build relationships for the future
- 7 Attract new talent and strengthen partnerships
- 8 Generate sales leads and educate the market

Marketing Reach

An extensive marketing campaign will be used to promote the **6th Spatial Statistics conference** to ensure maximum exposure for your organisation.

Website

A website devoted to the Conference, <https://www.elsevier.com/events/conferences/spatial-statistics> is live and will be updated continuously in the lead up to the event providing all current information on the program, speakers, networking functions and a section dedicated to sponsors and exhibitors.

Social media/Twitter #spatialstatistics2025

E-Mail Marketing

Direct email broadcasts will be distributed regularly in the lead up to the event. The email broadcasts include Congress updates such as program announcements, registration opening, networking functions, newly confirmed sponsors and exhibitors and more.
