Earth and Planetary Sciences Journals

We publish research across all spheres of Earth and Planetary Sciences that lay the foundations for a sustainable future.

We highlight Earth Science research for a habitable world, lead publishing programs that advocate for a fairer world, and create opportunities for the intersection of ideas for a more connected world.

The best home for your best work

We will give you the support and visibility you need to ensure that your Earth and Planetary Science research is read, shared, cited and reused:

IMPACT

Publish in journals that are part of a portfolio with the highest field-weighted citation index in Earth Science research.

REACH

Give your research unparalleled visibility on Elsevier's leading platform, ScienceDirect.

CHOICE

Select from our wide range of journals, covering everything fundamental to applied research, early discoveries to cutting-edge breakthroughs, all with open access publishing option.

FIND THE RIGHT JOURNAL FOR YOUR RESEARCH:
journalfinder.elsevier.com
