IMPORTANT INFORMATION

PLEASE READ THIS INFORMATION BEFORE PROCEEDING TO THESE TERMS AND CONDITIONS OF USE

The Terms and Conditions can be downloaded [here](#).

All information contained in these Terms (see Section 1.2 below for the definition of the term "Terms") is important and should be read carefully. However, we would like to draw your attention in particular to the following Sections of these Terms of Use (the definition of the term "Terms of Use" is set out in Section 1.2 below) and the essential provisions contained therein. These Sections may affect your rights and interests. It is important that you read these Sections in their entirety, not just the summaries below:

By registering for an Account (defined in Section 4.1 below) and/or by accessing or using any part of the Services (defined in Section 1.1 below), you are entering into a legally binding contract. The contract is between you and us, and includes all terms, regulations and documents that form the "Terms" (this term is explained and defined in Section 1.2 below). Please read [Section 1](#) carefully.

You must be 18 years of age or older and meet certain other criteria and conditions to register for an Account and use the Services. Please read [Section 4](#) carefully.

We will need to perform Verification Checks (defined in Section 6.1) before you can use your Account for certain actions. We may also conduct Verification Checks on an ongoing basis after you open your Account. If we are unable to complete our Verification Checks, we will take appropriate action in accordance with applicable law and your Account will be suspended and, ultimately, terminated. We may also pass on any necessary information to the competent authorities. Please read [Section 6](#) carefully.

You can only open one Account. If we discover that you have opened and/or used more than one Account (what we refer to as a “**Duplicate Account**”), we will have

certain rights, including the right to close your Duplicate Account(s) (and, in some cases, your original Account as well) and cancel Transactions (defined in Section 4.1 below), Bonuses (defined in Section 13 below) and/or winnings. Please read [Section 8](#) carefully.

Withdrawing your funds: In principle, you will be able to withdraw your Available Balance from your Permanent Account (defined in Section 5) at any time, but in certain circumstances exhaustively listed in Section 11, we will delay or prevent withdrawals. Please read [Section 11](#) carefully.

In some cases, we reserve the right to suspend types of bets/settlement of bets and/or cancel Transactions: for example, where the integrity of an event has been called into question, or where we suspect that the Transaction has been compromised by match-fixing, manipulation of odds or masses, other forms of cheating or other suspicious activity. Please read [Section 14](#) carefully.

We will not tolerate fraudulent activity, cheating, or other "Prohibited Activities" (defined in Section 16 below). If you commit any of these activities, we will have certain rights, including the right to suspend and, if necessary, close your Account, cancel all relevant Transactions and/or prevent access to funds (including winnings). Please read [Section 16](#) and [Section 17](#) carefully.

Malfunctions and Interruptions: In the event of a Malfunction or Interruption of any of the Services (defined in Section 22 below), we have certain rights, including (but not limited to) the right to suspend the relevant event/bet type in order to allow us to investigate and/or cancel the affected Transactions. This includes situations in which the problem is not clear to you or to us, and is only discovered by us as a result of a subsequent check or verification of the outcome of a Transaction and/or the progress of a game. Please read [Section 22](#) carefully.

Your obligation to indemnify us. You may be required to compensate us if we suffer losses as a result of your involvement in a Prohibited Activity. Please read [Section 24](#) carefully.

We may occasionally take action with respect to your Account for legal and/or regulatory reasons, including where we are required to do so by the terms of our approval and/or a regulatory authority. These measures may include performing certain Verification Checks, restricting/closing your Account. We may also prevent you from participating in and/or completing certain Bonuses. Please read Sections [6](#), [13.5](#) and [17.5](#) carefully.

1. Introduction - The Terms and Conditions of Use and other Important Terms that apply to you

1.1 When you open an Account with us (the term "**Account**" is defined in Section 4.1

below) and/or use or access any betting product, or service (including the bet365.com Website as well as the Mobile Application), and/or any other website or application owned or operated by us (together the “**Services** ”), you are entering into a legally binding agreement with us.

1.2 These terms and conditions do not contain all the terms and conditions that apply between you and us (the “**Terms of Use**”) – some are contained in separate documents in order to prevent these Terms of Use from being too long. We refer to these other documents and provide you with direct links to them below. These documents remain important and form part of the legal agreement between you and us, and you should read and understand them as well as these Terms of Use. The terms and conditions to which we refer which (in addition to these Terms and Conditions of Use) form the binding agreement between you and us (known in this document as the “**Terms**”) include the following :

(a) the Sports Betting Rules which can be found by [clicking here](#);

(b) in addition to the terms and conditions applicable to Bonuses described in Section 13 below, the terms and conditions specific to the Bonuses that we offer from time to time, which will be available on the relevant Bonus page(s) of the Website (the term "Bonus" is defined in Section 13.1 below).

1.3 In the event of any inconsistency between the Terms and Conditions of Use and the terms listed above, these Terms and Conditions of Use shall prevail (unless otherwise specified).

1.4 Please read the Terms carefully before opening an Account or accessing any part of the Services. If you do not agree to the Terms, you are not authorized to use, access, or access any part of the Services.

2. Who are we?

2.1 References in these Terms to “**bet365**”, “**we**”, “**our** ” or “**us**” are to Hillside (New Media Malta) Plc, a company incorporated in Malta (Identification Number C 66039), with its registered office at Office 1/2373, Level G, Quantum House, 75, Abate Rigord Street, Ta' Xbiex, XBX 1120, Malta.; and

2.2 Hillside (New Media Malta) Plc has a licence for the categories of "online sports betting" under the number 0067-PS-2026-04-16-AGR-00, and its activity is regulated by the National Gaming Authority.

3. Changes to these Terms and/or the Services

Changes to these Terms

3.1 We may change the Terms from time to time for a variety of reasons, including to comply with applicable laws and regulations, to reflect changes to the Services, for security purposes, and/or to reflect changes in our business operations or procedures.

3.2 After such changes have been made, you will be required to accept any changes when you subsequently log in to your Account.

3.3 If you do not agree with any changes to the Terms, you must immediately cease your use of the Services and your Account will be terminated. If you agree to the Terms and any amended Terms, the Terms will apply to you.

Changes to the Services

3.4 From time to time, we may make changes or modifications to, or correct, suspend, supplement to, remove or terminate any aspect of the Services (or any part thereof).

4. Account Eligibility and Registration

4.1 In order to use the Services and to make any bets, stakes, and/or similar transactions with us (collectively “**Transactions**”), you must first register to open an Account with us (“**Account**”).

4.2 In order to be eligible to open an Account and use the Services, you must meet all of the following conditions and, by opening an Account, you guarantee that you:

(a) are 18 years of age or older and have the legal capacity to enter into these Terms and use the Services;

(b) act solely for your personal use in connection with your Account and your use of the Services (i.e., you are not acting on behalf of any other person or entity);

(c) are not self-excluded from gambling and are not prohibited from gambling or using our Services for any reason;

(d) do not already have an Account with us (see Section 8 below for more information on Duplicate Accounts);

(e) agree that there is a risk of loss of money when using the Services and that you are responsible for such losses;

(f) are not an employee of bet365 or the family of a bet365 employee;

(g) are not part of the senior management of a third-party provider of bet365;

(h) are a resident of France; and

(i) have not previously had an Account with us (or any other member of our group of companies) that we (or the relevant company) have restricted or closed, for any Prohibited Activity.

4.3 Access to and/or use of the Services may be illegal for persons who are resident or located in certain countries.

5. Opening an Account

5.1 In order to open an Account, you must complete the required registration form with certain personal information.

5.2 All information you provide when you open an Account must be complete, accurate, and not misleading in all respects.

5.3 You must keep your registration and Account information up to date. You can update and change your account information, through the "My Account" section when you are logged into your Account or by contacting us. It is important that you notify us of any changes to information that may affect your use of the Services (e.g., your payment method and contact information) as soon as possible. If you need any assistance, please [contact us](#).

5.4 By opening an Account, you assure and confirm to us that you meet the eligibility requirements described in Section 4 above and that all information you provide when opening an Account (and also thereafter) is complete, accurate and not confusing.

5.5 We may refuse to register an Account if we have a legitimate reason including but not limited to one of the reasons set out in Section 4.2, and/or if we have reason to suspect that you are involved in a Prohibited Activity (as defined in Section 16 below).

5.6 In accordance with the applicable regulations, the account opening procedure will initially result in the creation of a temporary account (the "**Temporary Account**"). Your

Temporary Account allows you to make deposits and make Transactions. However, you cannot withdraw any balance to your payment account with a Temporary Account. Withdrawals to your bank account may only be made once your Account has passed all applicable verification checks (the "Permanent Account") (see Section 6 below).

5.7 The Temporary Account is open for a maximum of 30 days. During this 30-day period, you must provide us with all necessary verification documents, and if you do not do so or if the documents are not validated, your Temporary Account will be suspended. You will then no longer be able to make deposits or make Transactions, and you will not be able to access the Services. You will then have an additional 30 days to finalize your registration by sending all the necessary documents. If you do not complete the account opening and validation process, and in particular, if you do not provide us with the required documents and/or supporting documents within a maximum period of sixty (60) days from the request to create the Account or if you have provided non-compliant documents, your Temporary Account will be closed. Any balance will be blocked for a period of 6 years from the date the Account is closed. At any time during this period, you will be able to obtain payment of the balance by providing us with the necessary documents and payment information. At the end of the 6-year period and without any action on your part, the balance of the Temporary Account will be transferred to the French State after deduction of €5 for administrative costs.

6. Account Verification

6.1 We are required to carry out certain checks in order to remain compliant with our legal and regulatory obligations – for example, to verify your age, identity, address, location and the origin of funds you deposit and use – we may also carry out other fraud prevention and verification checks (collectively the “**Verification Checks**”). We may ask you to provide various types of information and supporting documents in order to enable us to carry out these Verification Checks, for example (but not limited to) a copy of your identity card, passport, driver's licence, residence licence, financial statements, documents supporting the expenses on your Account, proof of address and/or any other documents/evidence that we may reasonably request.

6.2 Upon creation of your Temporary Account, you must provide us with certain information and in particular the following documents:

(a) a document proving your identity and date of birth, i.e. a copy of your valid identity card, passport, driver's license, residence permit or resident card; and

(b) a document proving the postal address of your place of residence, such as a rent receipt, a water, gas, electricity, internet or telephone bill or your last tax or non-tax

notice.

You can send us these documents by uploading them electronically in the Verification section of your Account or by emailing them to us at documents@bet365.com.

6.3 In the event that we observe a discrepancy between the information entered during the registration process and that on the supporting documents provided, resulting from a clerical error, we will notify you and ask you to rectify your information or ask for your permission to correct your information accordingly. In the event of a discrepancy between the information you have provided and the information on the supporting documents, which is not due to a clerical error, we will be obliged to close the Account and enter any balance in accordance with our regulatory obligations.

6.4 We will also verify that your bank details are in your name. We will close your Account if the bank details used to withdraw the available balance and/or the credit/debit card used to make a deposit into your Account are not in the name of the person who opened the Account.

6.5 The use of the Services is prohibited by minors, and you acknowledge that you will not assist any minor in applying for a bet365 Account or in using a bet365 Account. If we discover (after you open an Account) that you are under the age of 18:

(a) your Account will be terminated;

(b) any deposits made by you will be returned to you;

(c) all Transactions made through your Account will be cancelled; and

(d) we may report such activities to the relevant regulatory authorities.

6.6 By opening an Account, you acknowledge and agree that we are entitled to carry out any Audit Checks that are reasonably necessary and/or required to be carried out by applicable laws and regulations. We will carry out Verification Checks during the Account opening process, and it is also possible that we may need to carry out additional/enhanced Verification Checks at certain times, such as when financial caps are reached and/or if certain risk factors arise or change. In both cases, we act reasonably in order to remain compliant with our legal and regulatory obligations. You agree to promptly provide all information/documents that we may reasonably request in connection with the Audit Checks.

6.7 If our Audit Checks cannot be carried out in a manner that reasonably satisfies our

obligations, we will be obliged to take appropriate action in accordance with applicable regulations, and your Account will be suspended or permanently terminated. In this case, we may be required by applicable law/authority to prevent access to funds in your Account including as set out in Article 17 of these Terms.

6.8 We may share your information with our regulators.

6.9 Your personal information will be treated in accordance with our Privacy Policy (see Section 27 below).

7. Account Security

7.1 We allow our customers to choose their own username/email address combination and password for their Account, as well as a 4-digit code to access the bet365 applications from their mobile phone (collectively the "**Login Credentials**").

7.2 You must always keep your Login Credentials secret and never share them with any other person.

7.3 You are responsible for all Transactions made from your Account and for any other activity on/through your Account if your Login Credentials have been entered correctly and/or access to your Account has been obtained via Touch ID, fingerprint login, Face ID, passcode, or if the "Stay Logged In" option (or a similar option on your device(s)) has been enabled (and in any case, whether with your permission or not). Accordingly bet365 shall not be held liable for any Transactions or any other activity on/through your Account resulting from your negligence in safeguarding your Login Credentials or securing access to your devices. However, bet365 may be held responsible, in accordance with applicable law, where it is established that such Transactions or activity are not attributable to you but result from a proven fault or breach by bet365 of its obligations, including where applicable a failure to implement appropriate state-of-the-art security measures.

7.4 We recommend that you change your Login Credentials regularly. If you suspect at any time that someone else knows your Login Credentials, you will need to change them immediately via the Settings area of your Account. If you forget any or all of your Login Credentials, please [contact Us](#).

7.5 If you enable Touch ID, fingerprint login, Face ID, passcode, or if the "Stay Signed In" option (or a similar option on your device(s)) has been enabled and you suspect that someone else may be accessing your Account via one of these login methods, you must immediately disable the relevant login methods on your device(s) and [contact us](#).

7.6 Please note that cardholder information and any other personal data should never be sent to us by unencrypted email. If you need help sending an encrypted email or sending us confidential information, please contact us.

7.7 You can view the current balance and Transaction history of your Account at any time after logging into your Account.

8. Duplicate Accounts

8.1 You may only open one Account. If we discover or have reason to believe that you have opened more than one Account, each such Additional Account will be considered a "**Duplicate Account**". For each Duplicate Account, we will :

(a) close the Duplicate Account in question, leaving you with only the original Account (unless we have reason to close all of your Accounts - for example, if you have intentionally or fraudulently opened more than one active Account);

(b) consider void any Bonuses and/or free bets obtained using the Duplicate Account (and, if applicable, the original Account), as well as any winnings from such Bonuses and/or free bets; and

(c) void all uncompleted and/or future Transactions on the Duplicate Account (as well as any winnings from such Transactions).

9. Inactive Accounts

9.1 We will consider your Permanent Account to be "Inactive" if your Account remains inactive for a consecutive period of 12 months. We will try to get in touch with you before your Permanent Account becomes Inactive. An account is considered inactive during any period during which no sports or pari-mutuel bets are placed.

9.2 We will immediately close any Permanent Account that is considered Inactive.

9.3 If your Permanent Account becomes Inactive, any positive balance will be returned to you after a deduction of €5 for administrative costs. If the Account balance is equal to or less than the administrative fee, you will not be able to recover it.

9.4 For security reasons, we may need to confirm the validity of the information related to your last payment method before we can refund the amount of your balance to it. In the event that it is not possible to refund the balance on your last means of payment,

you will be asked to provide the details of a bank account opened in your name with a service provider established in a Member State of the European Union or in a State party to the Agreement on the European Economic Area that has concluded an agreement with France including an administrative assistance clause in order to combat fraud and tax evasion, so that we can check that account and return the balance.

9.5 If we cannot verify the bank details, the balance of the Inactive Account will be blocked for a period of 6 years. At any time during this period, you will be able to obtain payment of your balance by providing us with the required information and provided that we have been able to carry out the required verifications. At the end of the 6-year period and without any action on your part, the balance of the Account will be transferred to the French State after a deduction of €5 for administrative costs.

10. Deposits, Currency, and How Your Funds Are Held and Protected

Deposits

10.1 You may only make Transactions within the limits of the funds available and credited to your Account. This means that, if you wish to make Transactions through your Account, you must deposit funds into your Account beforehand.

10.2 To find out more about how to make a deposit, [click here](#). We have the right to withdraw and/or restrict certain payment/deposit methods at any time, without having to notify you.

10.3 You may only deposit funds into your Account from a payment source of which you are the holder.

10.4 We do not charge for deposits made by Debit/Credit Card. However, please note that some card issuers consider betting transactions to be "cash" payments and therefore may charge you a cash advance fee. For more information, please check with your card issuer.

10.5 By depositing funds into your Account, you instruct us, and we agree, to keep such funds and any winnings, for the sole purpose of using them: (i) to place your bets on sports and (ii) to pay any fees or charges you may incur in connection with the use of our Services (this is the "**Purpose**"). The funds deposited into your Account are guaranteed under a trust. We hereby inform you that the trustee is IQ EQ Management (RCS Paris 431 252 121). The contract between IQ EQ Management and us covers the funds deposited by you in your Account in accordance with French regulations. By accepting these Terms, you thereby accept the benefit of the trust.

10.6 We are not a bank, and you may not use your Account to hold funds that are not intended for use in connection with the Services. The funds in your Account do not earn any interest and no credit will be given to you by us (which means that all Transactions must therefore be covered by sufficient funds in your Account).

10.7 Funds are deposited, wagered and winnings paid out in Euros.

11. Withdrawals

11.1 You may withdraw any available real money balance in your Permanent Account at any time, provided that:

(a) all payments made to your Account have been confirmed as credited and have not been charged, rejected, or otherwise reversed;

(b) we have carried out our Verification Checks on your Temporary Account (see Section 6.2 above). If we have requested information from you in order to enable us to carry out these Verification Checks (see Section 6.6 above), any delay in providing this information may result in a delay when you withdraw funds;

(c) we are not required to block the payment of your deposit and/or winnings under applicable law or regulation and/or we have not received an instruction to do so from any regulatory authority; and

(d) there are currently no ongoing or completed investigations (unless they have been completed and have been decided in your favour):

(i) an Interruption or Malfunction (as those terms are defined in Section 22 below) in relation to any aspect of the Services you have used; or

(ii) where we have reasonable evidence that you are involved in a Prohibited Activity (as defined in Section 16.2 below) that allows us to Hold funds in accordance with Section 17.5 below,

and in the circumstances set out in (a) and (b) above, you acknowledge and understand that, as set out in the "Important Information" section at the beginning of these Terms and Conditions of Use, we have the right to cancel any affected Transaction, prevent access to funds (including winnings) and (in the event of illegal or prohibited activity) suspend and, as a last resort, close your Account.

11.2 Withdrawals can only be made in the name of and to the holder of the Registered Account.

11.3 The payment bank account must be a current account opened with a payment service provider established in a Member State of the European Union or in a State party to the Agreement on the European Economic Area that has concluded an agreement with France containing an administrative assistance clause in order to combat fraud and tax evasion.

11.4 Withdrawals can be made by clicking on 'Withdrawal' in your Account settings, provided that there are sufficient funds in your Account and unless these Terms require or allow us to hold funds (as explained in Section 11.1 above). Withdrawals will be returned to the payment bank account on file.

11.5 We do not impose a maximum withdrawal amount per day, but some withdrawal methods have their own maximum limits per transaction. Please see the Withdrawals section by [clicking here](#) for more information.

12. Placing Transactions and Confirming Transactions

Placing Transactions

12.1 We have the right to refuse to accept all or part of a Transaction that you have requested via the Services, if we have a legitimate reason to do so. A legitimate reason may be, but is not limited to, the reasons set forth in Section 4.2 or be due to a Prohibited Activity (as defined in Section 16.1).

12.2 We only accept Transactions made online (including via the mobile app). Transactions are not accepted in any other form (mail, email, fax, etc.) and when received by these means, they will be invalidated and void - whether they win or lose.

12.3 It is your responsibility to ensure that the details of your Transactions are correct. Once Transactions have been placed, you may not cancel them. You can only change Transactions by using the "Edit My Bet" feature, where available.

12.4 Your funds will be allocated to Transactions in the order in which they are placed and will then no longer be available for any other use. Transactions placed with funds allocated to one or more other Transactions will be cancelled.

12.5 Transactions will not be valid if there are insufficient funds in your account to cover the Transaction.

12.6 Any Transaction you request online or through our applications will be valid **only** once accepted by our servers and provided that we have received payment in full (see Section 12.7). Each valid Transaction will receive a unique Transaction code. You can view your Transaction history in your Account history or you can [contact us](#).

12.7 Transactions are only valid when we have received payment in full. Transactions will be automatically cancelled if we have not received payment before the start of the relevant event.

12.8 Maximum earning limits apply to our Services. The maximum amount that can be won for certain sports and bets will be shown on the selection, if applicable.

13. Promotions, Bonuses and Offers

13.1 We may, from time to time, through the Services, offer certain bonuses, offers and/or promotions, including (without limitation) [bet credits](#), cash prizes, tangible prizes, gift cards, discounts, cashback offers (each a “**Bonus**” and together “**Bonuses**”) from time to time. “Bet credits” are a form of promotional balance that can be used to place Transactions. They are not real money and cannot be withdrawn. Any winnings from Transactions placed with bet credits will be added to your withdrawable balance, but the bet credits stake itself will not be returned.

13.2 All Bonuses are subject to these Terms, which as explained in Section 1.2 above, include the Bonus-specific terms/rules.

13.3 All Bonuses are limited to one per person.

13.4 We may withdraw, amend or cancel any Bonus at any time without notice. If we do so (and except in the circumstances described in Section 13.5 below), any Bonus you have joined or acquired will remain valid in accordance with and subject to the Bonus Terms applicable at the time it is offered.

13.5 We may also prevent the granting of new Bonuses and/or the fulfilment of Bonuses for legal and regulatory reasons, including but not limited to responsible gaming reasons.

13.6 Any breach of the terms and conditions applicable to the Bonus will be considered a Prohibited Activity (as defined in Section 16.1).

14. Settlement Terms for Transactions and Payment of Winnings, as well as our

Right to Suspend Bet Types/Events

14.1 As explained in Section 12.8, Transactions are subject to maximum win limits, which form part of these Terms.

14.2 The "Potential Winnings" calculation available on the Services is provided for informational purposes only, and all Transactions will be calculated on the basis of the stake/risk at the accepted odds. In the case of Multiple/Combination Bet Transactions with a cancelled selection(s), the 'Potential Wins' amount will be reduced accordingly.

14.3 If a selection included in a multi/accumulator bet is declared non-participating or void, the Transaction will be settled on the remaining selections.

14.4 Winnings from settled Transactions are added to your Account balance, subject to our rights to void winnings/block monies, as explained and specified in these Terms.

14.5 We reserve the right to (i) suspend any or all of our betting types on any event or series of events; (ii) blocksettlement, and/or (iii) cancel the Transactions, in each case if we have reasonable evidence that any of the following has occurred in connection with such event or series of events:

(a) the integrity of the event or events have been called into question;

(b) the dimension(s) or mass has been manipulated;

(c) we have reasonable evidence that robots or other automated systems have placed a bet;

(d) we have reasonable evidence that a match has been fixed, in particular where there are irregular and/or unusual betting patterns;

(e) where we have received incorrect data or information from data feeds or other sources relating to an event/type of bet. We will not cancel Transactions if we rely on this ground (e), but will simply suspend our offer and/or temporarily delay settlement in accordance with points (i) and (ii) above, unless and until data or information can be verified, after which the Transactions will be settled in accordance with the rules for determining bets set out below in Section 15.3.

Evidence of the above (without limitation) may be based on the size, volume or pattern of Transactions placed with us on all or part of our betting networks. If no fraudulent or illegal behaviour has been found as a result of our investigation (and/or, where

applicable, the investigation by the relevant governing body of the relevant sport), settlement of the relevant Transactions will be made. The decision of the governing body concerned will be decisive.

14.6 Where there is evidence that a series of Transactions each with the same selection(s) has been placed by or for the same individual or a group of individuals acting in a concerted manner, we reserve the right to cancel the Transactions or block the payment of winnings pending the outcome of any further investigation.

14.7 For events for which there is no official declared start time, the announced start time of the event will be considered the start time. If, for any reason, a Transaction is inadvertently accepted after the start of an event or match (other than a live bet clearly indicated on the Services), the Transactions will remain valid provided that the final result is not known and no participant or team has obtained a material advantage (e.g., a change of score, a sending off for the other team, etc.) at the time the Transaction was placed. If, however, the outcome of an event/type of bet is known, we will void the Transaction, whether it wins or loses. Disputes regarding the time a Transaction was placed will be settled using our Transaction database. Unless otherwise stated, all times indicated on the Services and/or mentioned by our staff refer to France time.

14.8 Live Betting: If we have reasonable evidence that a Transaction has been placed after the outcome of an event is known, or after the selected participant or team has obtained a material advantage (e.g. a change in score, expulsion for the other team, etc.), we will void the Transaction, whether it wins or loses.

14.9 It is your responsibility to report your gains and losses, if any, to the tax authorities and/or other authorities in your jurisdiction.

15. Sports and Special Event Betting

15.1 We accept Sports and Other Special Event Transactions advertised through the Services. All such Transactions are subject to the rules applicable to each sport, e.g. football, tennis, boxing, etc. In a match between two teams whose participants are named, if any player is substituted before the start of the match, all Transactions placed prior to the substitution and relating to the substituted/non-starter will be voided, regardless of whether they win or lose. Our general betting rules apply to any situation not covered by special rules.

15.2 Unless otherwise specifically provided for in the Sports Betting Rules, where the official outcome of the bet type is a tie, and no odds have been offered for this eventuality, all Transactions on the participants affected by the tie will be voided and the

stakes refunded.

15.3 The outcome of a match or event shall be determined on the day it is concluded for betting purposes, subject to confirmation by the relevant governing sports body. Any subsequent investigation that may result in a decision being overturned will not be recognised by bet365, and the original settlement of the Transactions will remain valid. If no official results from an appropriate governing body are available or if there is a problem with the outcome announced by that governing body, we will report the problem to the governing body and/or the ANJ and settle the bet accordingly.

15.4 If the venue of a sporting event is changed, all Transactions placed on the basis of the original venue will be cancelled and stakes refunded, unless otherwise provided.

17. Suspending, and Closing Your Account at Our Discretion

17.1 We may (depending on the specific circumstances) close, restrict, or suspend your Account at any time without notice where we have reasonable evidence that you have engaged in any Prohibited Activity or have violated the Terms. Restricting your Account may include, for example and without limitation, a restriction on using certain payment methods (where, for example, we have reason to believe fraudulent activity or other Prohibited Activity may have been carried out in connection with a certain payment method). If we close your Account, the contractual relationship between us will then be terminated.

17.2 We may also close your Account without notice if we discover that you have not met the eligibility criteria (see section 4 above) to open an Account.

17.3 If we have reasonable evidence that you have engaged in any Prohibited Activity, we will restrict or suspend your Account without notice, and your Account will remain restricted/suspended for the duration of the investigation. Once your Account is restricted or suspended, you will be notified. You agree to fully cooperate with any such investigation. You will not be able to access or withdraw your funds during the hold periods, and any balance will remain in the Account. We will make every effort to complete our investigation within a reasonable time, but you acknowledge that any delay on your part in responding to our requests for information or other requests will affect our ability to do so.

17.4 If our investigation concludes (acting reasonably) that the issue has been resolved to our satisfaction, we will lift the suspension on the Account. If our investigation concludes (acting reasonably) that you have engaged in Prohibited Activity, we will permanently close your Account. In these circumstances, your data may be passed on to any relevant regulatory authority or any other relevant external third party. In any case, we will inform you of the outcome of our investigation.

17.5 We may also need to restrict, suspend or close accounts for legal or regulatory reasons, including where we are required to do so by a competent authority and/or the conditions of our authorisation. These actions, if any, may affect the use of your Account.

17.6 If we close your Account, any positive real money balance available in your Account at the time of such closure will be refunded to you, **unless**:

(a) you have been involved in illegal activity and provided that we are permitted under applicable laws, regulations and public authority orders or directives to retain your balance; and

(b) if we have reasonable evidence that you have participated in any Prohibited Activity, we will withhold all or part of the Account balance and/or cancel or recover from deposits made to your Account, payments, Bonuses and/or any winnings (if any) in each case, to the extent attributable to the relevant Prohibited Activity(ies).

20.2 In addition, some third-party product providers may require you to agree to additional terms and conditions governing the use of their products. If you do not agree to these terms, do not use the applicable third-party software.

20.3 You may only use the Software for the purpose of using the Services as designed and, except to the extent permitted by applicable law, for no other purpose.

20.4 We grant you a personal, non-exclusive, non-transferable right to use the Software, for the sole purpose of using the bet365 Services, as designed to be used, in accordance with the provisions below.

(a) You may not: (i) install or launch the Software on any server or other networked device or take any other action to make the Software available to any other person through any "bulletin board," online service, remote connection, or network; (ii) sublicense, assign, rent, lease, loan, transfer, or copy (except as expressly provided in these Terms) your license to use the Software or make or distribute copies of the Software; (iii) enter, access, or attempt to enter, access, or circumvent our security system in any way or interfere in any way (including, but not limited to, through the use of robots or similar devices) with the applicable products or Services, or attempt to make changes to the Software and/or its functions or components; or (iv) copy or translate any User Documentation provided online or in electronic format. In addition, and except to the minimum extent permitted by applicable computer program law, you may not: (a) translate, reverse engineer, decompile, disassemble, modify in any way the Software or create derivative works based on the Software; (b) reverse engineer, decompile, disassemble, modify, adapt, translate, attempt to discover the source code of the Software, or create derivative works based on all or any part of the Software.

(b) You do not own the Software. The Software is the exclusive property of bet365 or a third-party software provider (the "**Software Provider**"). Any software, and accompanying documentation, licensed to us are proprietary products of the Software Provider and are protected worldwide by copyright laws. Your use of the Software does not give you ownership of any intellectual property rights in the Software.

(c) In the event of Communication or System Errors (as defined in Section 22 below) that occur in connection with the management of Accounts or other features or components of the Software, we reserve the right to remove all affected products from the Services and take any other action to correct such Errors.

(d) You acknowledge that your use of the Software is beyond our control and at your own risk.

(e) The Software may include confidential information that is secret and important to the Software Provider and/or to our company. You are permitted to use or disclose such confidential information only in strict accordance with these Terms.

20.5 You must not misuse the Services by introducing viruses, Trojan horses, worms, logic bombs or other malicious or technologically harmful content. In particular, you must not gain unauthorized access to, interfere with, damage, or disrupt all or any part of the Services; any equipment or network on which the Services are stored; any software used in connection with the provision of the Services; or any equipment, software or website owned or used by any third party. You must not attack our Services by means of a denial-of-service attack. Except where we have not taken appropriate measures, we will not be liable for any loss or damage caused by a distributed denial-of-service attack, viruses or other technologically harmful content that may infect your computer programs, data and equipment or any other proprietary equipment, due to your use of the Services, of the Software or your downloading of any content posted on the Services or on any website linked to it, where such loss or damage results from a case of force majeure as defined in Article 1218 of the French Civil Code.

21. Third-Party Content

21.1 We receive news feeds, comments and content from a number of providers. Some third-party product providers may require you to agree to additional terms and conditions governing the use of their news feeds, comments, and content (including those specified in Section 21.2 below). If you do not agree to the terms and conditions of the relevant third parties, do not use their news feeds, comments and content.

21.2 The Terms and Conditions for end users of Racing TV streams, comments and content are available [here](#).

21.3 Where the Services contain links to third-party websites and resources, such links are provided to you for your information only. We have no control over the content of such sites or resources, and are not responsible for them or for any loss or damage that may arise from your use of them. The inclusion of a link to a third party's website does not constitute an endorsement of such third party's website, product or services (if any).

22. Malfunctions, Errors and Interruptions

22.1 We strive to provide you with a high quality betting platform, but we cannot guarantee that the Services will function properly at all times. Various kinds of errors may occur - technical, human or otherwise - and you understand and agree that we are providing the Services to you, and that you must accept them, in the condition in which we may from time to time make them available.

22.2 In this section, we describe the issues that may arise and the rights we have in such cases.

22.3 Here are some key definitions to help you understand this section:

A “**Malfunction**” means when an automated process does not function as designed or intended, such as when software has a variation from the intended specifications or performance parameters, or when two software packages fail to interface or communicate with each other in the intended or designed manner, in both cases in such a way as to produce a result that is not the one that was planned or designed. These malfunctions may or may not be apparent, either to you or to us. Inexcusable errors in accordance with French case law that are attributable to us are not considered to be malfunctions.

An “**Error**” refers to a technical or operational error but excludes all "inexcusable errors" within the meaning of French case law.

An “**Interruption**” refers to an interruption of a Game Transaction for any reason, such as an interruption caused by an internet or connectivity failure, severe latency in communications, or a technical failure due to a disaster or unforeseen event.

22.4 When any of the above occurs, it is important that you understand and agree to the following before using the Services, as we have set out in the "Important Information" section at the top of these Terms and Conditions of Use:

Malfunctions

22.5 If, as a result of a Malfunction, your Account is credited with winnings that you would not have received but for the Malfunction, we may cancel the relevant Transaction and any related Transactions and retain the winnings in question. This applies even if the gambling product or Bonus in question could have generated the same or a similar amount of winnings without the intervention of the Malfunction and this applies whether or not the Malfunction was apparent to you or ours. If you have withdrawn any such winnings, you agree to reimburse us for the amount thereof as soon as we ask you to do so.

22.6 Where a Malfunction is or becomes apparent or obvious to you, or where you suspect that a Malfunction may be occurring, you agree to immediately stop using the relevant Service(s) and to [contact Us](#) immediately.

Errors

22.7 In the event of an Error, we may suspend the affected event/bet type while we investigate the issue, and we will settle Transactions as set out below:

(a) **Incorrect Match** – where an incorrect player or team is quoted for a match, Transactions will be void.

(b) **Incorrect Bet Type** – if an incorrect bet type is quoted for a match or event, Transactions placed on that bet type will be void and other types of bets may also be voided.

(c) **Late Bets** – where a "Late Bet" (being a bet placed where the outcome is already known) is inadvertently accepted the Transaction will be cancelled.

22.8 If, as a result of an Error, your Account is credited with winnings that you would not have received without the Error, we reserve the right to cancel the relevant Transaction and any related Transaction(s) and to block the winnings in question. This applies even if the gambling product or Bonus in question could have generated the same or similar payout without the intervention of the Error, and this applies whether or not the Error was apparent to you or ours. If you have withdrawn any winnings credited as a result of an Error, you agree to refund the amount to us as soon as we ask you to do so.

22.9 Where an Error is or becomes apparent or obvious to you or where you suspect that an Error may be occurring, you agree to immediately stop using the relevant

Service(s) and to [contact Us](#) immediately.

22.10 Our priority is to ensure that we treat Interruptions in a manner that is fair and does not systematically disadvantage our customers.

22.11 In relation to **betting activities**: we reserve the right to suspend bet types, cancel Transactions and return their stakes to customers.

23. Absence of Chance and Ambiguity

23.1 Chance is a constituent element of sports betting. Any bet on an event implies the randomness of its occurrence at the time it is placed. In the absence of chance, a Transaction cannot be validly placed and we will cancel the relevant Transaction and the stakes will be refunded to you. For example, we will cancel Transactions on known or impossible results.

23.2 If the wording or wording of a bet is unclear or ambiguous, such that the Transaction placed cannot give rise to a valid betting contract, we will cancel the relevant Transaction and the stakes will be refunded to you. In these situations, the exact purpose of the Transaction cannot be identified, and it is not possible to determine whether the bet is a winner or loser, and consequently the Transaction is void.

Art. 24. Your Liability to Us, Our Right to Set-Off

24.1 We may set off any credit balance in your Account against any monies you owe us.

24.2 You agree to indemnify us for any costs, fees or losses suffered or incurred as a result of any Prohibited Activity by you.

25. Responsible Gaming

25.1 We are committed to responsible gaming. We strive to promote gambling as an enjoyable leisure activity and we believe that gambling can only stay that way if you stay in control and gamble responsibly. However, we are aware that gambling may, for some people, cease to be a harmless hobby and become a problem.

25.2 We have a number of tools in place to help you stay in control of your gambling habits. For example, you have the options Pause, Deposit limits, Checks and checks, Self-exclusion, Budget calculation, Track your activity and Block access to the game. In particular, when you register and open your Account, you must enter certain

information about yourself and control your ability to play by setting:

(a) a weekly limit for deposits made to your Account;

(b) a weekly limit (set at 7 consecutive days) for your bets; and

(c) an automatic withdrawal threshold.

25.3 For further information, advice and support, please [click here](#). Please note that you can change the game limit settings at any time by increasing or decreasing the limits.

26. Intellectual Property Rights

26.1 The Services and their content are protected by international copyright laws and other intellectual property rights. The owner of such rights is bet365, its affiliates and/or any other third party licensors.

26.2 All product and company names and logos mentioned on the Services are the trademarks, service marks or trade names of their respective owners, including bet365 (as applicable).

26.3 Except to the extent required to place Transactions, no part of the Services may be reproduced or stored, modified, copied, republished, uploaded, displayed, transmitted or distributed, by any means or in any manner, or included in any other website or in any public or private electronic retrieval system or service, including but not limited to text, graphics, video, messages, code, and/or software.

27. Privacy and Cookies

27.1 Your personal information is processed in accordance with our Privacy Policy, a copy of which can be found [here](#).

27.2 Our Cookie Policy, a copy of which is available by [clicking here](#), explains what cookies are, how they are used on the Services and how to manage their use.

28. Other important legal terms

28.1 If you breach these Terms and we do not take any action against you, we will still be able to exercise our rights and remedies in any other situation where you breach these Terms.

28.2 The rights and remedies provided in these Terms are cumulative and (except as otherwise provided herein) do not exclude any other rights or remedies available to us.

28.3 If any provision of these Terms is found by a court or competent body to be invalid or unenforceable, the remaining provisions will continue to apply.

28.4 Subject to obtaining all necessary regulatory approvals, we may at any time transfer our rights and/or obligations under these Terms to another organisation. Without limiting the foregoing, we may wish to transfer our rights or obligations under these Terms to another company in our group or to any other legal entity, including in the event of a restructuring or sale of our business. You agree that we will do so provided that, in the event of any such transfer, after we have notified you of the date on which such transfer will occur, your rights under these Terms will be enforceable against the new legal entity. If you are not satisfied with this change, you may close your Account at any time.

28.5 These Terms are only as personal to you. You may not transfer your rights or obligations under these Terms, or your account, to any other person.

28.6 If we need to notify or contact you under these Terms, we will do so using the information registered in your Account or through a notice on our websites, applications and/or other parts of the Services. If you would like to contact us, you can do so by following the following link [Contact Us](#).

29. Claims and Disputes, Governing Law and Jurisdiction

29.1 In this Section 29:

(a) "**Gaming Dispute**" means a claim that relates to any Game Transaction (including the administration of the Transaction) or that is related to the management or operation of your Account and that has not been resolved in the first step of our claims procedure described below; and

(b) "**Consumer**" means any person acting wholly or mainly for purposes unrelated to his or her commercial, industrial, craft or liberal activity.

29.2 In the event of a claim or dispute arising out of a Transaction or in connection with the Services, please follow our internal complaints procedure which can be found [here](#).

29.3 If we are unable to resolve a gaming complaint or dispute following the published Complaint Procedure, you may contact the Gaming Mediator at the following postal

address: Gaming Mediator, Immeuble TRIEO, 11 boulevard Galliéni, 92130 Issy-les-Moulineaux France, or at the following email address: mediation@anj.fr. The Gaming Mediator's website is available at www.mediateurdesjeux.fr.

29.4 These Terms, and any dispute or claim arising out of or relating to their subject matter, shall be governed by French law.

29.5 The French courts shall have exclusive jurisdiction to settle any dispute that may arise out of or in connection with these Terms, it being understood that the choice of French law shall not prevent you from bringing proceedings before the courts of your home country, if different. If the dispute is not a Gaming Dispute, legal action may also be brought by bet365, in its sole and absolute discretion, against any party breaching these Terms and Conditions, at its option, in the courts of the place of domicile of that party, and, if there are more than one party, in the court of the place of domicile of any of those parties, and all other parties shall submit to such jurisdiction.

Introduction

This document serves as a comprehensive guide to the sports betting rules and regulations employed by bet365. It outlines the specific conditions and interpretations that govern how bets are settled across a wide array of sports, from Athletics and Football to more niche markets like Sailing and Weightlifting. The document details general betting principles, sport-specific rules, and clarifies the settlement of various bet types, including handicaps, totals, and outright markets, ensuring clarity and consistency for bet365 customer.

1. General rules applicable to all bets offered on the website

The following rules will apply to the bets offered on the website, unless otherwise stated in the sections dedicated to each specific sport.

Statistics provided by the official website of the relevant competition will be used to execute and settle bets. If the statistics of the competition organizer are not available or if it is clearly evident that they are incorrect, we will contact the organiser of the competition or sporting event and/or the ANJ, and we will settle the bets accordingly.

All bets offered on a competition will be limited to the phases authorised in the ANJ Sports List. All bets offered on rankings will be limited to the TOP X defined in the ANJ Sports List.

Outright Betting is non-runner no-bet unless otherwise stated

Match-Up/Finishing Position markets

Bets will be void if both participants withdraw or do not finish within the Top X per sport - if stipulated by the regulator

Dead-Heat Rules

A **dead heat** is a tie between two or more competitors for a specific position (e.g., first place, or a top 10 finish) that cannot be separated even by a photo finish or other tie-

breaking methods. When a dead-heat occurs, settlement will be based as such. For example:

Two-way dead heat (two tied competitors): Your stake is halved (divided by two). Half the stake is settled as a winner at the original odds, and the other half is lost. In any case, the recalculation of the odds will not result in the application of odds lower than 1.

1. Athletics

Outright Betting is non-runner no-bet

Diamond League/Grand Prix/Indoor Meetings

Prices will be offered on selected events. Where prices are offered for a given event then four selected athletes will be quoted. Only the quoted athletes count for settlement purposes. In the event of one or more of the quoted athletes being declared a non-runner then the entire market will be void. All quoted athletes must start for bets to have action. World Athletics official results are used for settlement purposes - the winner being deemed as the highest placed of the four athletes quoted upon completion of an event.

Olympics/European and World Championships - Outright/Group/Heat/Round/Tournament Betting

Non-runner no-bet. Participants awarded gold, silver and bronze medals at the medal ceremony will be deemed 1st, 2nd and 3rd respectively for betting purposes.

2. Badminton

General

Outright Betting is non-runner no-bet.

Future appeals and/or disqualifications will not affect betting.

Match Betting: If any player in a match changes before it starts, all bets will be void.

If a match starts but is not completed or is played to a specific time limit and as a result is not completed, all bets will be void unless the outcome of the relevant bet is already determined or there is no reasonable way in which the match could have been completed normally without unconditionally determining the outcome of a given bet type.

Total Points Betting (Match and Player, including other options): Bets are based on the statutory number of sets played. If the statutory number of sets is changed or differs from what is offered for betting, all bets are void. For all these types of bets, if a Setting Option is set in the form of a point-based tie-break, this will be counted as one point for settlement purposes.

Lead after current/next set: If the indicated number of points is not reached during the relevant set, the team/player winning the set will be declared the winner.

First Set Bets: The set must be completed for these bets to stand, unless the outcome of the relevant bet type is already determined.

Correct Set Score: Bets are void if the statutory number of sets are not completed, or are changed.

Markets:

Correct Set Score

- **Explanation:** Bet on the exact final score of the match in sets.
- **Example:** Player A to win 2-1 in sets. If Player A wins the match 2 sets to 1, your bet wins.

Match Ups

- **Explanation:** This is a head-to-head bet between two specific players in the same match or tournament.
- **Example Settlement:** You bet on "Player A to finish higher than Player B."
 - If Player A loses their match but Player B also loses, and Player A finishes with a better overall score or ranking, your bet wins.
 - If Player B finishes higher than Player A, your bet loses.

Result and Total Double

- **Explanation:** This bet combines two outcomes: the winner of the match and the total number of points played in the match. Both parts of the bet must be correct for it to win.

- **Example Settlement:** You bet on "Player A to win the Match and the Total Points to be Over 76.5."
 - If Player A wins the match and the total number of points in the match is 77 or more, your bet wins.
 - If Player A wins the match and the total number of points in the match is 76 or less, your bet loses because the total number of points is less than 76.5.
 - If Player B wins the match and the total number of points in the match is 77 or more, your bet loses because Player A did not win the match.

- **Example Settlement:** Let's say the line is 80.5 points.
 - If the match ends with a total of 81 points or more, your "Over 80.5" bet wins.

- If the match ends with a total of 80 points or fewer, your "Under 80.5" bet wins.

- **Example:** Team A to win the next set. If Team A wins the next set, your bet wins.

1st Set Handicap:

- **Explanation:** Bet on a team or player to win the first set with a point handicap.
- **Example:** Player A -3.5 handicap in the first set. If Player A wins the first set by 4 or more points, your bet wins.

Next Set – Total Points:

- **Explanation:** Bet on the total number of points played in the next set (over/under).
- **Example:** The next set to have under 36.5 points. If the set finishes in 36 points or fewer, your bet wins.

1st Set Winning Margin

- **Explanation:** This is a bet on the difference in points by which a player will win the 1st set (game).
- **Example:** You bet on "Player A to win the First Set by 5 points."
 - If Player A wins the first set with a score of 21-16, your bet wins (the margin is 5 points).
 - If Player A wins the first set 21-15 or 21-17, your bet loses (the margin is not exactly 5 points).

Current Set Winning Margin

- **Explanation:** This is a bet on the difference in points by which a player will win the current set (game).
- **Example Settlement:** You bet on "Player A to win the current Set by 5 points."
 - If Player A wins the current set with a score of 21-16, your bet wins (the margin is 5 points).

3. Baseball

General

All matches must start on the scheduled date (local time) for bets to stand. If a match is postponed or cancelled before the scheduled start time, all bets will be void.

Hypothetical Matchups - Potential playoff matches that may be offered in advance of a confirmed schedule. If a displayed match is not played, all bets will be void.

Non-MLB Baseball: All bets are considered, at the fixed odds, regardless of the pitcher for each team. The launchers displayed are for informational purposes only. The 8.5 innings rule applies, although the Mercy Rule applies. Attention: In baseball, the "Mercy Rule" or the mercy rule, also called the "run rule," is a rule that ends a game prematurely if one team has a large and seemingly insurmountable lead, usually 10 runs or more after a certain number of innings. Leniency rules may vary from league to league.

For 7-inning games played as part of a doubleheader, the 6.5-inning rule applies.

Unless otherwise stated below, in 2-option bet types, Push rules apply. E.g. If no winning outcome then bets are void. Stakes on single bets are refunded, while for multiple/combined bets the selection is treated as a non-runner, remaining selections will continue as Win/Lose

For any game where the full 9 innings are played, and the team batting second is leading after 8.5 innings, then any recorded score of the home team in the 9th inning does not count for the settlement of bet types.

MLB Bets

All bets are considered, at the fixed odds, regardless of the pitcher for each team. The pitchers displayed are for informational purposes only.

For any MLB playoff game that is interrupted and resumed within 72 hours of the interruption, all bets stand and are settled after the game has concluded. If the match is

not completed within 72 hours of the interruption, all bets are void unless settlement has already been determined.

Matches not played as scheduled

In the event of a change of venue, bets already placed will remain valid, provided that the home team remains designated as such. If the home and away teams for a game are reversed (e.g., the game is played on the away team's home field), bets placed based on the original roster are void. For matches scheduled to be played on neutral ground, bets will stand regardless of how we state the order of the fixture.

4.5 innings rule

Money Line & Money Line 3-Way There must be at least 5 complete innings of play, unless the team batting second is leading after 4.5 innings, for bets to stand. If the match is abandoned or suspended after this point of play, the winner is determined by the score after the last complete inning (unless the team batting second scores to tie the game or takes the lead in the second half of the inning, in which case the winner is determined by the score at the time the match is abandoned). Please note that suspended games are not postponed (except for MLB playoff games – see specific rule). If the Mercy Rule is used, all bets will stand on the score at that time.

6.5 innings rule

Total and Run Handicap Betting (for 7-inning games) – The game must be at least 7 complete innings (or 6.5 innings if the team batting second is leading) for bets to have action. If the Mercy Rule is used, all bets will stand on the score at that time. Please note that suspended matches are not postponed.

8.5 innings rule

Total and Run Handicap Betting – The game must be at least 9 complete innings (or 8.5 innings if the team batting second is leading) for bets to have action. If the Mercy Rule is used, all bets will stand on the score at that time. Please note that suspended matches are not postponed

Mercy Rule

In baseball, the "Mercy Rule" also called the "run rule," is a rule that ends a game prematurely if one team has a large and seemingly insurmountable lead, usually 10 runs or more after a certain number of innings. Mercy rules can vary from league to league

Main Pre-Match Odds

All pre-game bets take into account extra innings unless otherwise stated.

When the Mercy Rule is applied, all bets stand on the current score.

Winner & Winner - 3 options - Subject to the 4.5 round rule.

Handicap on points, Handicap - 3 options and Run line - Other options – Subject to the 8.5 innings rule.

Total Runs, Team Total, Total - 3 Options and Total Runs - Other Options – Subject to the 8.5 Innings Rule, EXCEPT where the total has already been over, (if the total has already overtaken the stated total, then Over bets are settled as winners, and Under bets are settled as losers) or where the expected end of the match would mean that the outcome of the stated total would be determined. For example, if an MLB game is stopped or suspended at 5-5, Over 10 or 10.5 bets are considered winners, with Under 10 or 10.5 bets considered losers, since any expected end to the game would have included at least 11 runs.

Innings 4.5 - Total – Bets are settled on the score at the midpoint of the 5th inning (e.g. not at the end of the 5th inning), unless the stated total has already been exceeded. In this case, all bets are settled as follows: bets over the stated total are considered winners, and bets under the stated total are considered losers.

Handicap - Innings 4.5 Innings – Bets are settled on the score at the middle of the 5th inning (not at the end of the 5th inning), unless the team batting first is in the lead (with a Runs Handicap applied) at the start of the 5th inning or takes the lead by scoring (with a Runs Handicap applied) in that inning, in which case the team batting first is declared the winner.

Total after 3/5/7 Innings – Bets are settled on the score after 3/5/7 complete innings unless the stated total has already been exceeded. In this case, all bets are settled as follows: bets over the stated total are considered winners, and bets under the stated total are considered losers.

Handicap after 3/5/7 Innings – Bets will be settled on the result after the first 3/5/7 innings of a match have been completed, unless the team batting second is already in the lead (with a Runs Handicap applied) midway through the relevant inning, or takes

the lead by scoring (with a Runs Handicap applied) in that inning, in which case the team batting second will be declared the winner.

Alternative pre-match bets

When the Mercy Rule is applied, all bets stand on the current score.

All bets are considered, at the fixed odds, regardless of the pitcher for each team. The launchers displayed are for informational purposes only. Unless otherwise stated, extra innings are counted.

All Alternative Bets - 1st Inning– 1st Inning must be completed for bets to stand, unless settlement is already determined.

–

Money Line and Total Double (including Alternatives) / Run Line and Total Double

Subject to the 8.5 Innings Rule unless settlement is already determined, for example if an MLB game is abandoned or suspended at 5-4 at the end of the 6th inning, at which point bets on the 8.5 Innings Total Runs would be determined (as the quoted total has already been exceeded) and the Winner portion of the Combo is subject to the 4.5 Innings Rule (as standard) and is therefore determined.

Double Result – Result after 4.5 innings and final result of the match. If a match ends in a tie, bets will be void.

Total Points - 5 Options – The 8.5 innings rule applies, unless the total has already reached the highest band, in which case that band will be settled as the winner.

Winning Margin – Subject to the 8.5 innings rule. The rules include extra innings for MLB; for non-MLB games that can end in a tie, this option is available. If an MLB game ends in a tie, when a game is cancelled/suspended bets will be void.

All bets stand regardless of pitcher changes. Unless otherwise stated, extra innings are counted. If, after a bet is placed, there is no further play in a match, bets are void.

Winner – Subject to the 4.5 innings rule.

Handicap on points / Handicaps - Other options – Subject to the 8.5 innings rule.

Total Runs/Total - Other Options – Subject to the 8.5 innings rule, EXCEPT where the total has already been overrun, (if the total has already overrun the stated total, then Over bets are settled as winners, and Under bets are settled as losers) or where the expected finish of the match would mean that the outcome of the stated total would be determined. For example, if an MLB game is stopped or suspended at 5-5, bets on Total Runs - Over 10 or 10.5 are considered winners, with bets on Under 10 or 10.5 being considered losers, since any expected end to the game would have featured at least 11 runs.

Team Total – Subject to the 8.5 innings rule, UNLESS the team total has already been exceeded (if the team total has already exceeded the stated total, Overs are considered winners and Unders are considered losers).

Handicap (3 options) – Includes Handicap Tie price. Extra innings count. Subject to 8½ innings rule.

Go to Overtime – The end of the 9th inning must be completed for bets to stand. In the event of a tie after 9 innings, this type of bet will be considered a Yes, even if extra innings are not played due to the match being stopped/suspended.

Runs Handicap - Innings (including Other Options) – Both the first (away team) and second (home team) halves of the specified innings must be completed for bets to stand, unless the runs handicap has already been achieved by the team batting second in the specified innings and cannot be exceeded.

Total Innings (including Other Options) – Both the first (away team) and second (home team) halves of the specified innings must be completed for bets to stand, unless the stated total is already exceeded at the time the match is abandoned/suspended.

One Run in One Half of an Inning – The specified half-inning (away or home team) must be completed, unless a run has already been scored or a hit has already occurred when the game is stopped/suspended.

Team with Most Hits in (Current/Next) Inning – Both the first (away team) and second (home team) halves of the specified inning must be completed for bets to stand, unless the team batting second in the specified inning has the most hits when the game is stopped/suspended.

Total Hits in (Current/Next) Inning / Total Runs in (Current/Next) Inning – Both the first (away team) and second (home team) halves of the specified inning must be

completed, unless settlement is already determined.

Winning Margin – Subject to the 8.5 innings rule. The rules include extra innings for MLB; for non-MLB games that can end in a tie, this option is available. If an MLB game ends in a tie, when a game is cancelled/suspended bets will be void.

Exact match score - Subject to the 8.5 innings rule. The rules include extra innings when they occur; when a match can end in a draw, this option is available. If an MLB game ends in a tie when a game is cancelled/suspended bets will be void.

5 Innings - Winner – Bets are settled on the result after the completion of the first 5 innings, unless the team batting second is already ahead midway through the 5th inning, or scores and takes the lead in that inning, in which case the team batting second will be declared the winner.

Long Term Betting – General Rules

Regular Season Wins - The team must have played at least 160 regular season games for bets to have action, unless the remaining games of the season do not affect the outcome.

Regular Season - Special Bets - All bet types refer to season statistics accumulated in MLB and are transferable between the American League and the National League. Statistics accumulated in any other league are not taken into account. Unless otherwise stated, all bets stand, regardless of the length of the season.

Betting on the Final Winner, Pennant and Division

All bets stand regardless of team transfers, team name changes, season length or playoff format.

Introduction

General

Unless otherwise stated, bets placed on postponed fights will remain valid for 30 days. If either fighter is replaced with another fighter all bets will be void and stakes returned.

Fights for which betting is opened before their official date is known will be indicated on the site as taking place on December 31 until an official date is announced.

Bets placed on these fights will stand provided they take place during the current year or within the next calendar year. For example, bets placed on a fight scheduled on the site on December 31, 2020 are valid as long as the fight takes place on or before December 31, 2021. After this date, bets will be cancelled and stakes refunded. In the event of a fight being cancelled before an official date is announced, bets will be void and stakes refunded.

Once an official date for this fight is confirmed, bets placed on the fight on the announced date will be subject to the classic 30-day rule.

For betting purposes, the fight is considered to have started as soon as the bell rings for the start of the first round.

If either boxer fails to answer the bell at the start of a round, his opponent will be deemed the winner of the previous round.

In the event of a fight being declared a No Contest all bets will be void and stakes returned, with the exception of markets where the outcome has already been determined.

In boxing, a "no contest" (NC) is a fight result where no winner or loser is declared because the bout is stopped due to an issue outside the fighters' control, such as an accidental foul that injures one boxer, interference from an outsider, a problem with the ring itself, or other unusual circumstances.

If the scheduled round length is changed for a fight, for example, a 3 minute round is reduced to 2 minutes (but the scheduled number of rounds remains the same), then bets remain valid on all bet types.

Winner of the fight

In the event of a draw, all bets will be void and stakes refunded, including fights ending in a majority draw.

All bets will stand regardless of changes to the number of rounds.

Additional Information on fight outcomes and decisions within boxing

Draw or technical draw: A draw is a tie on the scorecard

KO or technical KO: A KO occurs when the boxer does not get up after ten seconds. A technical knockout occurs if the boxer is knocked down three times or if the referee intervenes. Any withdrawal will be considered a technical knockout, unless the

outcome of the fight is subsequently decided by the judges' scorecards or in the event of a declaration of "No Contest".

Technical decision: The decision is based on the points on the score sheets between the judges. The technical decision is determined by the judges' scorecards at any time other than at the end of the scheduled rounds.

For bets to stand, drivers must start the first qualifying session. For the fastest qualifying Driver in Qualifying Sessions 1 and 2, Drivers must start the relevant session for bets to stand. Specifically regarding Winner Margin bet types in Q1, Q2 and Q3 sessions, the specified session must start and recorded times must be established during the session, otherwise bets will be void. If extra time starts but does not finish, unless otherwise stated, extra time bets are void, except for bets where the outcome has already been determined at the end of the match.

Matches postponed, brought forward, abandoned or interrupted

An unplayed or postponed match is considered a non-starter for settlement purposes unless it is played within 5 days after the scheduled start time of the match. In this case, the bet stands, unless it is cancelled by mutual agreement.

If a match is played before the scheduled kick-off date or time, all bets stand provided the bet is placed no later than the revised kick-off time.

Any match abandoned before the end of 90 minutes of play is void, except for bets whose result has already been determined at the time of abandonment of the match. The bet must be fully defined to be validated. For example, bets on the first player to score or the minute of the first goal are taken into account if a goal has been scored when the match is abandoned.

If a match is interrupted, but then resumes (from the point it was interrupted) and is completed within 48 hours of the originally scheduled kick-off time, all bets stand.

Otherwise, if the match is resumed but not completed within 48 hours of the originally scheduled kick-off time, this is deemed an abandonment and bets on the original match are void, except for bets on the result which had already been determined before the match was initially interrupted.

If a match is interrupted for any reason and is replayed in its entirety (with the clock at

00:00), this is considered an abandonment and bets on the original match are void, except for bets on the result that had already been determined before the initial interruption of the match.

Matches not played as scheduled

If there is a change of ground for a match (other than the away team's ground), bets already placed will stand provided the home team is still designated as such. If the home and away teams for a match are reversed (e.g. the match takes place at the away team's ground), bets placed according to the original list are void.

We will endeavour to identify on our website all matches played on neutral ground. For matches played on neutral ground (whether indicated on our site or not), bets stand regardless of the home team.

If an official match features team information that is different from that shown on our website, bets are void. For example, an official match indicates the name of the team, the reserves, the age group (e.g., under 21), and the gender (e.g., women).

In all other cases, bets stand, including when we mention a team name without including the term "XI" in the name.

Combination Goal Range Markets (Result / Goals Range and Double Chance Goals Range)

The selection must combine the correct match result (Result or Double Chance) plus the total number of goals in the match that fall within the selected range for the 'Yes' result to win; or the correct match result (Result or Double Chance) plus the total number of goals in the match that fall within the selected range for the 'No' result to win.

First/Last player to score

We make every effort to establish first/last player to score odds for all possible participants. However, players not initially listed are considered winners if they score the first/last goal. Bets on players not starting the match are void, except in competitions where rotating substitutes are used in which case bets will stand whether the player starts or not.

Subsequent requests for information from official bodies are not considered for

settlement purposes.

Please note: Own goals do not count towards betting settlement.

Multi Scorers / To Score 2 or more / To Score a Hat Trick

Bets on players not starting the match are void, except in competitions where rotating substitutes are used in which case bets will stand whether the player starts or not.

Exact scores

Predict the score at the end of regulation time. Own goals are taken into account.

Scorecasts - First Player to Score/Correct Score Doubles

If a player enters the field after a goal or does not enter the field, these bets are settled as a straight bet for the correct score bet, at the corresponding odds at kick-off. If a match is abandoned after a goal has been scored, all bets will be settled as singles on the first goalscorer at the odds prevailing at kick-off. If the first goal of the match is an own goal, bets are settled on the next goalscorer and on the correct score bets. If all goals in the match are own goals, all bets are settled as single bets for the correct score bet, at the odds quoted at kick-off.

Scorecasts - Last Player to Score/Correct Score Doubles

If a player does not enter the field, these bets are settled as a straight bet for the correct score bet, at the odds quoted at kick-off. If a player enters the field when the correct score portion of the bet can no longer be reached, these bets are settled as a straight bet for the last goalscorer, at the odds quoted at kick-off. If a match is abandoned, all bets are settled as single bets for the last goalscorer bet, at the odds quoted at kick-off. If the last goal of the match is an own goal, bets are settled on the second to last goalscorer and on the correct score bets. If all goals in the match are own goals, all bets are settled as single bets for the correct score bet, at the odds quoted at kick-off.

First/Last team goalscorer

Bets on players not participating in the match are void. Bets where the selection comes into play after that team's first goal are void, whether or not the selected player has scored in the match. Own goals are not counted.

Live betting on the next goalscorer

We make every effort to establish odds for all possible participants. However, players not initially named are considered winners if they score the next goal. Bets on players not participating in the match are void, as are bets on the first player to score if the selected player comes on after the first goal. All players who entered the field before the next goal are considered starters.

If you place a bet on a player after they have left the field, and the selected player does not return to the field, bets on that player are void for that type of bet.

Subsequent requests for information from official bodies are not considered for settlement purposes.

Own goals are not counted.

Player who scores at any time

If a selected player does not start the match, bets are void, except in competitions where rotating substitutes are used in which case bets will stand whether the player starts or not.

Any bet placed on a game that is not completed is considered a non-runner.

Please note: Own goals do not count towards betting settlement.

Player to Score: Betting on whether a specific player will score a goal in the match. Bets on players that do not start the match will be void

Minute of the first goal

If a match is abandoned after the first goal, all bets stand.

If a match is abandoned before the first goal, all bets accepted for completed periods are considered losing bets and any other period which included the period of abandonment is void and considered a non-runner.

10 Minute Events

Events must occur between 0:00 min and 09:59 min to be counted in the first 10 minutes. The designated 10 minute period must be completed for bets to stand (unless the outcome of the bet in question is already decided).

Half Time Scorecast (Half Time Correct Score and Player to Score First)

If a player comes on after a goal, does not play in the first half, or all goals in the first half are own goals, these bets are settled as a single bet for the first half correct score bet, at the odds quoted at kick-off.

Anytime Scorecast (Correct Score and Player to Score Anytime)

If a player does not enter the field for the full 90 minutes of play or if all goals scored are own goals, bets will be settled as straight bets for the correct score bet, at the odds quoted at kick-off.

Wincast (Team to Win and Player to Score First)

If a player comes on after a goal, does not play in the match, or all goals are own goals, these bets are settled as a single bet for the match result bet, at the odds corresponding to the match kick-off.

Timecast (Time of First Goal and Player to Score First)

Players must start for bets to stand, otherwise bets involving that player are void (regardless of the minute of the first goal). If all goals scored are own goals, all bets are void.

Handicap betting, including live (3 options)

Settlement is made according to the displayed odds, based on the official score of the match, adjusted for the handicap.

If the match is abandoned before half time, bets are void.

Result after 10/20/30/40 Etc. Minutes In-Play

This bet is settled on the result at a specific point in the match. For example, the result after 10 minutes is set to the match result after 10 minutes of play. In case of abandonment before 90 minutes of play, all bets are void, unless the settlement is already defined.

Double result - Half-time / Full-time

If the match is abandoned, bets are void. Extra time and penalty shootouts are not taken into account.

Double result - Extra time

Bets are settled on the combination of the Result after the 1st period of extra time and the Result at the end of extra time. Bets are void if extra time does not take place or if the match is abandoned before the end of extra time.

Match - Special bets

Unless otherwise stated, special player bets are void if the player does not enter the field.

Bets are settled on the result at the end of 90 minutes of play. Unless otherwise stated, extra time, golden goals or penalty shootouts do not count.

When more than one participant is mentioned in a special bet, and there are non-runners, the bet is on the remaining participant(s) if a prize is available.

Winner's team scores: The player's team must win by one goal and that player must score the last goal.

Win both halves: The team must score more goals than the opponent in both halves of the match.

Team that wins by coming back: The team must be behind at any point in the match but must then win the match within 90 minutes.

Team to score a penalty: All bets are limited to 90 minutes of play. If no penalty is awarded, bets are settled as losers.

In the event of a foul during a penalty (when the referee penalizes the shooter for an illegal run or shot), the penalty is not counted as scored or missed and does not count for this bet.

Double chance

The following options are available:

1 or X – If the result is a home win or a draw, bets on this option are winners.

X or 2 – If the result is a draw or an away win, bets on this option are winners.

1 or 2 – If the result is a home win or an away win, bets on this option are winners.

If a match is played on a neutral ground, the team named first is considered the home team for betting purposes.

Betting Rules

Bets on a match or qualification are not affected if a team is subsequently disqualified or reinstated in the competition.

Settlement of the following bets is determined based on individual statistic definitions as detailed below:

Shots (including headers) on target (Match/Team) A shot on target is defined as any goal attempt that:

Is an intentional attempt to score and is on target. All Goals scored and Shots on Target saved by the Goalkeeper are included. Shots on target that are blocked by a last defender, who prevents the ball from entering the goal, are also included.

A shot hitting the goal frame is classified as a Shot Off Target, unless the ball subsequently enters the goal.

Shots (including headers) (Match/Team) A shot is defined as any intentional goal attempt that: a) Goes into the goal b) Would have gone into the goal if it had not been stopped by the goalkeeper or an opposing player who was the last defender. c) Heads towards the goal but is stopped by a defender, while there are other defenders or a goalkeeper behind them. d) Would have gone over or wide of the goal if it had not been

stopped by the goalkeeper or a field player. e) Hits the goal frame. f) Goes over or wide of the goal without contact with another player.

Assists (Selected Player) The last contact with the ball by a teammate that allows the receiving player to score a goal. If the assist is deflected by a player of the opposing team, it must be considered as going to the scorer, despite the deflection. An assist will not be awarded for own goals, goals scored directly from a free kick, goals scored directly from a corner or penalties.

Number of goals

If a match is abandoned before 90 minutes of play, all bets are void unless settlement has already been agreed. Please refer to the following examples regarding betting settlement:

Live extra time goals

Only goals during extra time are taken into account. If a match is abandoned before the end of extra time, all bets are void unless settlement is already defined.

Number of goals 2

Number of goals less than 2 - Bets win if 0 or 1 goal is scored in the match. If there are exactly two goals, the stake is returned. Bets are lost if 3 or more goals are scored in the match.

Goals Over 2 - Bets win if 3 or more goals are scored in the match. If there are exactly two goals, the stake is returned. Bets are lost if 0 or 1 goal is scored in the match.

Number of goals 2.5

Goals Over 3 - Bets win if 4 or more goals are scored in the match. If there are exactly three goals, the stake is returned. Bets are lost if 0, 1 or 2 goals are scored in the match.

Live Goals Score

For live betting, all goals count, whether scored before or after the bet.

Tournament Betting

If a specific series of matches (e.g., home and away matches), a specific stage or phase (e.g., group stage), or a competition as a whole, is interrupted for any reason, bets placed on any type of bet after the last official match are void.

Top scorer

Goals scored in the 90 minutes and extra time are taken into account. Goals scored in penalty shootouts are not counted. Dead-Heat rules apply (rather than the player receiving the Golden Boot, etc.): in any case, the recalculation of the odds will not result in the application of odds lower than 1. The team mentioned is for guidance only. Bets stand if a player is transferred to another team (other than the one named by the participant).

League top scorer

Goals scored in the 90 minutes of play and extra time are taken into account. Goals scored in penalty shootouts are not counted. Dead-heat rules apply.

The player's league is the league of the club the player was contracted to at the start of the tournament, or of his last club if his contract has expired.

Tournament Challenge

These rules should be read in conjunction with the General Conditions of Use of the Tournament Challenge game.

Introduction

Tournament Challenge is free and available as described in the Tournament Challenge section.

Only one entry is permitted per person. bet365 monitors the use of multiple accounts by the same person or group. If bet365 has reasonable evidence that one or more individuals have submitted multiple registrations, either by themselves or in collusion with a group of people, all registrations for that individual(s) will become null and void.

You participate in the Tournament Challenge by correctly predicting the outcome of each match during the tournament (over 90 minutes of play). You will get points for each correct prediction. The number of points will be determined according to the match odds. The points will be added up and taken into account for the general classification and the day's classification.

When each match selection is available for betting, you will be able to modify your choices until the start of the match.

Prizes

The available prize pools are displayed in the Tournament Challenge section. There is a ranking for the general tournament and a ranking by day (up to and including the round of 16). Ranking positions will be determined based on a points system awarded for correct predictions, and a shared prize pool will be created if the number of participants in the same ranking position is greater than the number of places available in that same position.

If matches are postponed, the original selections will stand provided that the postponed match(es) are played at another time/date within the scheduled match schedule, meaning that the competition has taken place in full.

If, in the case of abandoned matches, the official governing body provides an official result for one or more specific unplayed/incomplete matches and/or allows teams to progress in the case of unplayed/incomplete matches, that result will be used to determine settlement.

If abandoned matches result in the tournament being incomplete, the selections will be void.

The outcome of each match will be determined by the official governing body of the tournament in question.

Tournament Challenge prizes will be credited once the result of the last match in question is known.

The prize value displayed for the Tournament Challenge option is the maximum available based on a single winner and will be reduced if the prize pool needs to be split. If more than one participant correctly predicts all outcomes, the total amount of the applicable prize pool will be shared equally among all affected participants.

For payment of large winnings, winners can be contacted directly by bet365.

Your account may be subject to verification checks before withdrawal of any Tournament Challenge prize winnings.

Any prize will only be returned to the designated account holder.

Restrictions

Participation in the Tournament Challenge is separate from standard bet placement and not all bet365 offers apply.

Group Stage Predictor

These rules should be read in conjunction with the General Conditions of Use of the Group Stage Predictor game.

Introduction

Group Stage Predictor is a free game and available as detailed in the Group Stage Predictor section.

Only one entry is permitted per person. bet365 monitors the use of multiple accounts by the same person or group. If bet365 has reasonable evidence that one or more individuals have submitted multiple entries, either on their own or in collusion with a group of people, all entries by that individual(s) will become null and void.

Group Stage Predictor is a game that involves making selections in order to correctly predict the final group standings. You can manually select your predictions or use the "Auto-select" option, which will automatically fill in your predictions.

Participation is possible until the kick-off of the first match of the competition. Your existing participation can also be modified until this date.

Prizes

The available prize pool is displayed in the Group Stage Predictor section. The jackpot will be awarded for the perfect prediction and the top 50,000 in the ranking will receive prizes. The amount of the Jackpot is calculated on the basis of the perfect prediction of a single participant. If more than one participant manages to make the perfect prediction, a prize pool corresponding to this amount will be shared between the winning participants. The ranking is determined by a points system based on correct predictions. A shared prize pool may be set up if the number of participants competing for a specific place in the ranking is greater than the number of places available in the prize pool for that place.

In the event of a postponed match, the initial selections will be valid as long as the postponed match(es) are played on another date/time within the scheduled schedule, which would result in a fully completed tournament.

If, in the case of abandoned matches, the official governing body provides an official result for an incomplete or unplayed match and/or teams already qualified in the case of incomplete or unplayed matches, then these elements will be taken into account in the settlement of bets.

If matches are abandoned and the tournament cannot be completed, the selections will be cancelled.

The results of the final Group Stage will be determined by the official governing body of the relevant tournament.

Prices for Group Stage Predictor will be determined once the result of the last relevant match is known.

The prize value displayed for Group Stage Predictor is the maximum available based on a single winner and will be reduced if the prize pool is split. If more than one participant correctly predicts all outcomes, the total prize amount will be shared equally among all participants involved.

For payment of major prizes, winners can be contacted directly by bet365.

Your account may be subject to standard verifications before withdrawing any winnings from a Group Stage Predictor prize.

Any prize will only be awarded to the named account holder.

Restrictions

Participation in the Group Stage Predictor differs from standard betting and bet365 offers do not apply.

Anteposts

If a specific series of matches (e.g., home and away matches), a specific stage or phase (e.g., group stage), or a competition as a whole, is interrupted for any reason, bets placed on any type of bet after the last official match are void.

Divisional Betting

For settlement purposes, in divisional betting, the final position of teams at the end of the fixture schedule determines the standings (dead heat rules apply if two or more teams are tied in the standings, as per the official competition rules), and there will be no compensation for play-offs or subsequent claims by the respective leagues. Bets stand on any team that does not play all of its matches.

The only exception to this rule is in the South American leagues, where a play-off stage is played to determine the league winner when teams are tied for first place. In this case, we will consider the league winner to be the winner of the next play-off phase.

For leagues that do not complete their scheduled fixture schedule, we will settle bets based on the standings at the time the league stops if the relevant authority declares those results to stand.

For leagues that are declared void by the relevant football authority, all bets are void except those that have already been determined.

Relegation betting

If a team is withdrawn from the league before the start of the season, all bets on this type of bet are void and new relegation bets are offered.

Top Goalscorer

Only goals scored in the mentioned division are considered for this bet, regardless of the team (in that division) for which they were scored. The team listed next to the player is for information purposes only. Only league goals are counted - excluding play-off matches. Own goals are not counted. Dead-Heat rules apply.

Penalty - The goal must be scored directly from the penalty spot, with the penalty taker being designated as the scorer.

Header - The scorer's last contact must be with the head.

General

Unless otherwise stated, all match bets will be settled including overtime, if any. Unless otherwise stated, regular time must be completed for bets to stand. If the duration of a match is changed by the organiser before kick-off, this new duration will be considered the official regular time of the match and all bets will be valid once it has been completed.

Match betting

If any match ends in a draw/tie, including overtime if played, then stakes will be refunded unless a price is offered for the draw/tie. Bets will be settled on official AFL result only.

Matches postponed

Postponed matches are cancelled unless they are played within five days of the originally scheduled date.

Matches interrupted

If a match is interrupted, but then resumes (from the point it was interrupted) and is completed within 48 hours of the originally scheduled match time, all bets stand.

Otherwise, if the match resumes but is not completed within 48 hours of the originally scheduled match time, this is considered an abandonment and bets on the original match are void, except for bets on the result that had already been determined before the match was initially interrupted. If a match is interrupted for any reason and is replayed in its entirety, this is considered an abandonment and bets on the original match are void, except for bets on the result that had already been determined before the match was initially interrupted.

Matches not played as scheduled

In the event of a change of venue, bets already placed will remain valid, provided that the home team remains designated as such. If the home and away teams in a match are reversed, bets placed based on the original order will be void.

Otherwise, if the match resumes but does not complete within 48 hours of its original scheduled date, this will be considered an abandonment and bets on the original match will be void, except for bets whose outcome has already been determined before the first interruption.

If a match is interrupted for any reason and then completely replayed, this will be deemed an abandonment and bets on the original fixture will be void, except for bets where the outcome has already been determined before the first interruption.

The selected half must be completed for bets to stand, unless the outcome of the bet in question is already determined. This excludes overtime, if played.

Team's top scorer

Goals scored during the 60 minutes of regular time and extra time are taken into account, but not those scored during the penalty shootout. Dead-Heat rules apply. In any case, the recalculation of the odds will not result in the application of odds lower than 1. Bets are valid if a player participates in the tournament.

Introduction

General

Unless otherwise stated, bets placed on postponed fights will remain valid for 30 days. If a fighter is replaced, all bets will be void and stakes refunded.

Fights for which bets are offered before the exact official fight date is known will be listed on the site under the date of December 31, until an official date is announced.

Bets on these fights will remain valid as long as the fight takes place in the current year or the following calendar year. For example, bets placed on a fight listed on the site on or before December 31, 2020 will remain valid as long as the fight takes place before and including December 31, 2021; after this date, bets will be void and stakes refunded. In the event of a fight being cancelled before an official date is announced, bets will be void and stakes refunded.

Once the official date of a fight is confirmed, bets placed on the fight listed under the announced date will be subject to the 30 day rule as per usual.

For betting purposes, the fight is considered to have started when the bell sounds for the start of the 1st round.

If either fighter does not answer the bell for the next round, their opponent will be considered to have won the previous round.

If a fight is declared a "No Contest", all bets will be void and stakes refunded, except for bet types where the outcome has already been determined.

Bets will be settled according to the result declared at the end of the fight by the official announcer, in the event that a fight takes place while one of the named fighters fails to reach the specified weight. Subsequent appeals/amendments do not affect the settlement (unless the amendment results from human error when announcing the result). If the official announcer does not declare a result at the end of a fight, bet types will be settled based on the result displayed on the official website of the relevant organization.

If bets on an overall classification are revised between events, all bets placed after the last completed event will be void.

Betting on events (including winner / podium / winning nation)

All bets are settled according to the first official results/rankings of the International Ski Federation (FIS), International Skating Union (ISU), International Biathlon Union (IBU), official Olympic Committee or any official body competent in competition matters. Investigations, disqualifications and/or appeals will not affect betting.

If the conditions of a given event are changed from those originally planned by the official governing body, bets will be void, unless their settlement is already defined. This includes the following:

Change in the official distance (excluding alpine skiing). (Note: For cross-country skiing and biathlon, bets will be void if the official (stated) distance is changed, but will remain valid if the actual distance is changed).

Reduction in the number of rounds or change in the order of events, excluding ski jumping events, where results will stand for betting provided a round has been fully completed (including if the event/round is restarted, with the exception of Winner's Margin - see rule below). In the specific case of live ski jumping betting, if an event is stopped during the second round, the results of the first round become the official results of the event, any bet placed after the end of the first round will be void.

If a specific event (once the final list of competitors is published) is suspended or

postponed, bets will still stand provided the event takes place at the same venue within 36 hours (excluding Winter Olympics and World Championship events). If the event is held at another location, bets will be void and stakes refunded.

Participants must cross the starting line/gate for bets to stand. Otherwise, bets will be void and stakes refunded. Bets on any competitor taking part in qualifying for a given event but failing to qualify for the main round(s) will be settled as losing.

For settlement purposes, the result is taken into account at the time of the first announcement of the results by the organizer of the sporting competition or event. Future appeals and/or disqualifications will not affect betting.

Live Betting on Lap/Start/Jump 1: In the event of an event being abandoned before the completion of the first lap/start, bets will be void unless settlement has already been determined.

If an event restarts during the first lap/start/jump, all live bets placed before the restart will be void unless settlement has already been determined.

For multi-stage events, such as Cross Country Skiing - Tour de Ski and Ski Jumping - 4 Hills; for overall head-to-heads, one of the participants listed in a match must complete the event for bets to stand. Where overall head-to-head fixtures are amended and offered between legs, bets will be void if, after bets have been placed, one or both of the listed participants are no longer participating in the competition.

Winner's margin

Bets will be settled according to the winning spreads given by the official governing body of an event. If the conditions of a given event are changed from those originally planned by the official governing body, bets will be void (e.g. shortened race distances, reduction in the number of laps or jumps, change in the order of events).

If two or more competitors are tied for first place, the winner's margin will be defined by the difference between the first and the next finishing participant. For example, if two participants are tied for first place, the winner's margin will be the difference between them and the third-place finisher.

Shooting performance (including head-to-head and total shots)

If a biathlete starts a race, but does not finish it, bets will be void, unless their outcome was already determined at the time of withdrawal.

Race Match up

Each participant must leave the starting line/gate for bets to stand. If an event has only one round, the official results of that round will be used for settlement purposes. If a player is disqualified or retires after starting that round, the other player will be declared the winner.

Live Betting – Ski Jumping Overall Standings: If an event is stopped during the second round, the results of the first round become the official results of the event, any bets placed after the end of the first round will be void.

For multi-round events, if no participant qualifies for the next round, settlement will be based on the official ranking from qualifying or the first round/first heat.

If no participant manages to appear in the official ranking of the first round/first heat (because they did not complete the first round/first heat or were disqualified), bets will be void.

If both participants qualify for the next round, but neither completes the event, bets will be void. For cross-country skiing sprint head-to-heads, the official final ranking of the event will be used to define the rules.

If a competitor is disqualified or withdraws after starting, either before completing the first round or after each competitor has qualified for the next round, the other competitor will be deemed the winner, provided that competitor completes their own round.

If a competitor is disqualified during a later round while the other competitor in the race bet has not yet qualified for that round, the disqualified competitor will be declared the winner.

If the conditions of a given event are changed from those originally planned by the official governing body, bets will be void (e.g. shortened race distances, reduction in the number of laps or jumps, change in the order of events). This does not apply to ski jumping, where results will stand for match ups provided a round is fully completed (including if the event/round is subject to a restart).
