Annual Report 2014-2015

Dear Shareholders.

I am pleased to share with you that this Financial Year 2014-15, despite economic slowdown, your Company delivered another year of sustained growth and strong results. At your Company, we win with shoppers and consumers by providing consumer-preferred brands and products that become leading value creators in their categories. The best measure of winning is Operating Total Shareholder Return (TSR) because it is a single, coordinated and integrated measure of growth and value creation that brings together winning with shoppers and consumers to deliver sales growth, gross and operating margin improvement, and asset efficiency. As, I share with you, your Company's annual performance for the Financial Year 2014-15, I take pride in the fact that we delivered increased Net Sales of ₹ 1,971 crores, up 13% versus last year, with robust growth across all segments including Grooming, Oral Care and Portable Power.

The financial results of the Financial Year include a one-time facilitation income benefit of about ₹ 63 crores before tax related to the discontinuation of distribution of Duracell batteries. We continued to drive sustained growth and delivered Profit After Tax (PAT) at ₹ 158 crores, versus ₹ 51 crores last year, behind continued focus on productivity, operational excellence and cost optimization. Excluding the one-time Duracell distribution discontinuation facilitation income, PAT for the Financial Year increased to ₹ 116 crores, versus ₹ 51 crores last year.

Your Company has always believed that innovation is the lifeblood of our business. We invent brands and products that create and transform categories, and that build consumer trial and create value in those categories for years—often for decades. This Financial Year, your Company has consistently sought to innovate in all we do, to continue to touch and improve the lives of our consumers.

Your Company's focus on innovation and productivity was the key enabler behind brand building and providing superior products to the consumers this year as well. On Gillette Mach3, we completed the first ever global restage with a completely new look design across all three variants, viz., *Mach3*, *Sensitive* and *Turbo* with a bold new promise of 'Closer Shave with Zero Redness Guaranteed'. Gillette Guard, the innovative Entry Level system, registered its strongest year on value, volume and share growth, since its launch in 2010. *Oral-B* has led innovation this year within the sensitive category by launching the new sensitive whitening variant, helping the brand grow disproportionately within sensitive tier.

Innovation is integral to every aspect of your Company's business, and this is also reflected in the way we take our products to our consumers. For example, your Company launched its Limited Edition INDIA razors with the word INDIA engraved on the handle to encourage cricket fans to continue extending their relentless support to the team. As an ode to Indian cricket fans, your Company launched its 'The Best A Fan Can Get' video, saluting all cricket lovers who showcase their passion and relentless support towards Cricket and cricketers. The video featured brand ambassador Rahul Dravid, saluting the spirit of the Indian cricket fans who have made cricket what it is today. The video was adjudged as the 'Most watched campaign on You Tube India for Q1, 2015'.

We are rededicating ourselves to the power of execution. We are raising our standards to be the best at execution. We are renewing focus on gaining trial among consumers at the point of market entry. We are recommitting to superior advertising to create awareness and sampling clearly superior-performing products to attract consumers to our brands.

At P&G, sustainability means making every day better for people through how we innovate and how we act. This strategy has inspired an enduring CSR strategy supported by two pillars – P&G Shiksha and Timely Disaster Relief. P&G's signature corporate sustainability program P&G Shiksha has till date built and supported over 450 (+120 since last year) schools across the country that will impact the lives of over 800,000 (+200,000 since last year) children. In this last year, P&G Shiksha also forayed into improving learning outcomes by creating new frontiers for improving learning effectiveness across their primary and secondary education. P&G, over the past year, continued its efforts to provide timely aid and relief to families affected by natural disasters. P&G sent out relief aid to over 5,000 families affected by the J&K floods comprising of P&G products.

Any company that wants to drive growth and create value in the long run needs to adopt a mindset of 'winning'. Ensuring we deliver value to our stakeholders, we will continue to innovate so that we grow sales, profit and cash more consistently and more sustainably to create value more reliably for you, the Shareholders. We very warmly acknowledge the contribution made by our consumers, customers, employees, business partners and YOU, our valued Shareholders, to your Company's performance and for your dedication and commitment to maximize Total Shareholder Return. Together, we will continue in our journey towards touching and improving more lives, more completely.

1. CORPORATE INFORMATION

Gillette India Limited ('the Company') is a public company incorporated under the provisions of the Companies Act, 1956. The Company is engaged in manufacturing and selling of branded packaged fast moving consumer goods in the grooming, portable power and oral care businesses. The Company's products are sold through retail operations including mass merchandisers, grocery stores, membership club stores, drug stores, department stores and high frequency stores. The Company has its manufacturing locations at Bhiwadi in Rajasthan and Baddi in Himachal Pradesh, apart from third party manufacturing locations spread across India.

2. SIGNIFICANT ACCOUNTING POLICIES

2.01 Basis of accounting and preparation of financial statements

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2.02 Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

2.03 Revenue Recognition

Sale of products is recognised when risk and rewards of ownership of the products are passed on to the customers, which is generally on the despatch of goods. Sales exclude trade discounts and rebate. Sales include excise duty but exclude sales tax and value added tax.

Interest income is accounted on accrual basis.

2.04 Tangible Fixed Assets and Depreciation and Amortisation

Fixed assets are stated at cost of acquisition less accumulated depreciation & amortisation and impairment losses, if any. The cost of fixed assets comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Subsequent expenditure relating to fixed assets is capitalised only if such expenditure results in an increase in the future benefits from such assets beyond its previously assessed standard of performance.

Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost and related incidental expenses.

Depreciation is calculated on straight line method over the estimated useful life of the fixed assets. These lives are in accordance with Schedule II to the Companies Act, 2013.

Leasehold land is amortised over the period of the lease.

2.05 Impairment of Assets

The carrying values of assets/cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

2.06 Inventories

Inventories consist of raw and packing materials, stores and spares, work in progress and finished goods. Inventories are valued at lower of cost and net realisable value after providing for obsolescence and other losses where considered necessary. Cost of Inventories is determined on weighted average basis. Cost of manufactured finished goods and work-in-progress includes material cost determined on weighted average basis and also includes an appropriate portion of allocable overheads.

2.07 Foreign Currency Transactions

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction or at rates that closely approximate the rate at the date of the transaction. Monetary items in foreign currencies are stated at the closing exchange rates. In the case of monetary items covered by forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract and the difference between the year end rate and rate on the date of the contract is recognised as exchange difference in the Statement of Profit and Loss. Gains/Losses on conversion/translation have been recognised in the Statement of Profit and Loss.

2.08 Employee benefits

- i) Post-employment Benefits
 - a) Defined Contribution Plans:

The Company has Defined Contribution Plans for post employment benefits charged to the Statement of Profit and Loss, in the form of

The Company contributes 50% of employee's contribution (restricted to 2.5% of his base salary) and charged to Employee Benefit Expenses.
- vi) The Procter & Gamble Company, USA has an "Employee Stock Option Plan (ESOP)" whereby the specified employees covered by the plan are granted an option to purchase shares of the Ultimate Holding Company i.e. The Procter & Gamble Company, USA at a fixed price (grant price) for a fixed period of time. The difference between the market price and grant price on the exercise of the stock options issued by the Ultimate Holding Company to the employees of the Company is charged in the year of exercise by the employees.

2.09 Taxes on income

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the Income-tax laws) and deferred tax charge or credit (reflecting the tax effect of timing differences between accounting income and taxable income for the year). Provision for taxation for the Company's financial year ended on June 30 is based on the results of the period July 1 to March 31 (later part of the fiscal year ended March 31) and for the balance for the period April 1 to June 30 (beginning of the next fiscal year) as per the provisions of Income Tax Act, 1961 and other applicable tax laws. The deferred tax charge or credit and the corresponding deferred tax liabilities and/or assets are recognised using the applicable tax rates that have been enacted and other applicable tax laws as substantively enacted by the Balance Sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realised in future.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

2.10 Borrowing cost

Borrowing costs directly attributable to acquisition or construction of qualifying assets (i.e. those fixed assets which necessarily take a substantial period of time to get ready for their intended use) are capitalised. Other borrowing costs are recognised as an expense in the year in which they are incurred.

2.11 Segment reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated income/expenses/ assets/liabilities".

2.12 Leases

Assets taken on lease under which all risks and rewards of ownership are effectively retained by the lessor are classified as operating lease. Lease payments under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.13 Earnings per share

Basic earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits/reverse share splits and bonus shares, as appropriate.

2.14 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for (1) possible obligations which will be confirmed only by future events not wholly within the control of the Company or (2) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent assets are not recognised in the financial statements as this may result in the recognition of income that may never be there.

2.15 Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.16 Claims

The claims against the Company not acknowledged as debt are disclosed after careful evaluation of the facts and legal aspects of the matter involved.
