

PAINT MIXER

# ROTOGEN | 1000

## »The car paint shop's little helper«

Car paints simply mixed  
automatically to perfection

- | Car refinish paints
- | Use in car refinishing shops
- | Small mixing volumes

Also available in the version for  
use in explosive atmospheres

### Economical

Saves your costs by reducing mixing  
time and autonomous operation.

### Process reliability

Excellent process reliability and  
consistent quality mixing results,  
no mixing by hand any more!

### Easy handling

Easy and fast handling by Plug & Play  
concept for standard spray gun cup  
systems.

## Features

- For mixing volumes of 50 ml – 1.0 Liter
- No cleaning required after mixing
- Prevents color variations
- No segregation and floating of pigments on the surface
- Wide range of adapters available for “out of spec” or special containers

### The standard in the auto body shop

- Efficient and fast homogenizing of many other materials in small containers and bottles
- Also for primers, clear lacquer and solvents

## Technical data
