

With Collomix at the pool position

Mixing tool AR Special mixing paddle for mixing bitumen coatings

✚ The stirrer AR generates high shear forces which prevent the formation of lumps. The mixing tool supports a good material removal from the bottom and rim of the tub. Easy to clean because material hardly sticks

Mixing action: ▶

✚ Ideal for mixing 1- and 2-component bitumen coatings and bituminous fillers

Technical Data:

Article	Art. No.	Bar-Code 4011024...	Paddle Ø (mm)	Length (mm)	min. drill chuck (mm)	Connection	Mixing load (kg)	rec. r.p.m. (min ⁻¹)	Drive (watts)
AR 90 S	40129-000	401293	90	40	10		10 - 15	- 600	700
