

Transforming Our World

P&G and the U.N. Sustainable Development Goals

At P&G, we serve nearly five billion people around the world and have one of the strongest portfolios of trusted brands. We are committed to being a good citizen and always doing the right thing. We are proud that many of our ongoing corporate Citizenship efforts support the majority of the United Nation's Sustainable Development Goals (SDGs).

Sustainable Development Goals

P&G Participation

- For more than 180 years, P&G has been focused on improving the communities we serve. Many of our community impact programs such as our Children's Safe Drinking Water Program and Hope Schools are aimed at alleviating poverty and providing those in needs with health, hygiene and the comforts of home
- In response to the COVID-19 pandemic, P&G, our brands and our people stepped up to provide tens of millions of dollars in product, cash and in-kind donations.

- P&G and our brands have donated millions of dollars in cash and product to Feeding America and similar organizations to help them provide food to people in need through a nationwide network of food banks.

- Through partnerships with more than 150 organizations, our Children's Safe Drinking Water Program has provided clean drinking water to people in more than 90 countries.
- Our Safeguard handwashing program has helped more than 72 million children by teaching them one simple message: clean hands save lives.
- The Always Puberty & Confidence Education program helps more than 18 million people across more than 50 countries navigate puberty with confidence.

- Always has been helping girls around the world by tackling period-related barriers to their education and confidence. This includes providing access to period products and helping break the stigma that still surrounds periods. Through programs like our global award-winning #EndPeriodPoverty campaign and others, we've donated more than 90 million period products to help keep girls focused on reaching their full potential.
- In 1996, P&G founded Project Hope, a program that has built and renovated hundreds of schools in China, benefitting children living in rural or underdeveloped areas. P&G China continues its three-year corporate social responsibility plan, which includes giving P&G Hope School students more access to the performing arts.

- Our gender equality efforts are focused on three areas where we can have the greatest impact:
- Leveraging our significant voice in advertising and media to tackle gender bias through campaigns like Ariel #ShareTheLoad, Secret #AllStrengthNoSweat, Always #LikeAGirl and the Always Saudi #WeAreTheGenerationOfFirsts;
- Removing gender-biased barriers to education for girls and economic opportunities for women through our corporate programs and policy advocacy efforts;
- Creating an inclusive, gender-equal environment inside P&G — and advocating for gender-equal workplaces beyond. P&G—where everyone can contribute to their full potential.

- The P&G Children's Safe Drinking Water Program provides clean water through water-purification packets invented by P&G scientists. Working with more than 150 partners, we've provided more than 17 billion liters of clean water to families in need and will deliver 25 billion liters of clean water by 2025.
- We have provided one billion people with access to water-efficient products.
- We have reduced water use in manufacturing facilities by 27% per unit of production, with conservation focused on water-stressed regions.

- P&G now purchases 100% renewable electricity in the U.S., Canada and Europe. These three markets represent more than 70% of our purchased electricity globally.
- Our plants are now powered by 30% renewable energy, including our Albany Georgia bio-mass facility.
- We will continue pursuing new wind, solar and geothermal projects to further accelerate the transition to renewables.

With more than 99,000 global employees, P&G takes seriously the responsibility to provide our workforce with the economic stability to support their families and local communities. This employment spurs economic growth in the nearly 70 countries where we have operations, thus building stable economies and supporting civil society. P&G works with more than 45,000 suppliers globally, creating hundreds of thousands of jobs in many communities to support P&G business.

Starting in 1976, our Supplier Diversity program in the U.S. has created economic opportunities for underrepresented businesses, such as minority-owned, women-owned, LGBTQ+, veterans and people with disabilities. The program has since expanded globally, and we're partnering with organizations like U.N. Women and WeConnect to further ensure women entrepreneurs in all regions are getting access to training, support and business opportunities.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Innovation is at the center of P&G's operations, and we invest \$1.8 billion annually in our research and development programs. P&G operates 13 Innovation Centers around the world and leverages hundreds of scientific disciplines to create and drive innovation to anticipate and improve the lives of the world's consumers.

10 REDUCED INEQUALITIES

For years we have put a spotlight on bias and inequality to spark dialogue that leads to understanding and action. This year, we highlighted the disproportionate impact of COVID-19 on Black, Hispanic and LGBTQ+ communities and sponsored fundraising and relief efforts for those impacted by the pandemic in America. We established the P&G Take On Race Fund to help fuel organizations that fight for justice, advance economic opportunity, enable greater access to education and health care and make our communities more equitable.

11 SUSTAINABLE CITIES AND COMMUNITIES

- P&G and our brands bring the comforts of home to those impacted by natural disaster. This year, we supported more than 20 global disaster responses.
- Through our COVID-19 relief efforts, we helped local communities around the world with our brands, resources and people to help alleviate some of the impacts of the pandemic. For example, in the U.S., Tide Loads of Hope, made possible by Tide and Tide Cleaners, provided free laundry services for first responders and their families. They served more than 104,000 frontline responder visits, cleaning more than 1.8 million garments — all for free.
- We have active community impact projects around the world. From Shiksha education programs in India, to building inclusive playgrounds in Germany, to constructing a girls home in Kenya in partnership with Habitat for Humanity, we are committed to improving lives and communities around the world.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

- In 2010, P&G set ambitious environmental goals for 2020 and to date we have achieved the following:
- 100% of our plants are now zero manufacturing waste to landfill.
- 90% of product packaging is either recyclable or programs are in place to create the ability to recycle it.
- 99.5% of paper packaging contains either recycled or third-party certified virgin content, and we have plans in place to address the remaining small fraction (0.5%) of our supply.
- We have doubled the use of recycled resin in plastic packaging.

13 CLIMATE ACTION

- This year, P&G made a new commitment to be carbon neutral for the decade across our operations. We will achieve this by:
- Cutting greenhouse gas (GHG) emissions by 50% across our operations by 2030
- Funding a range of natural climate solutions projects that protect, improve and restore critical ecosystems where carbon is stored, delivering a carbon benefit equal to remaining GHG emissions from our operations P&G reaches five billion people through our brands, and with this scale, comes a responsibility to give consumers the power to reduce their own carbon footprints with products that are designed to help save energy, water and natural resources. This includes ensuring 70% of machine loads are washed in low-energy cycles — a goal set in 2010 that we met in 2019.

14 LIFE BELOW WATER

P&G is committed to help reduce the flow of plastic to our oceans. We've taken a leadership role in the Alliance to End Plastic Waste, a CEO-driven international organization focused on bringing together industry, government, communities and civil society in the fight to end plastic waste. We are also joining forces with organizations like The Ocean Conservancy's Trash Free Seas Alliance, WWF ReSource: Plastic and others to find solutions that keep plastic out of nature.

15 LIFE ON LAND

P&G's goal is to create responsible, ethical and transparent supply chains. Our commitment and approach in sustainable palm is based on: RSPO certification and supply chain management; environmental and social development programs and working to influence change across the industry via partnership. We now use 100% RSPO certified palm oil, with plans to increase to 100% certified palm kernel oil by the end 2022. Our long-term smallholder program is focused on improving yields, sustainable practices and thus livelihood of small farmers. Consumers can support responsible forestry by choosing our Charmin and Puffs products, which are Forest Stewardship Council® certified and for every tree used, at least one is regrown.

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

Ethics is at the foundation of all of P&G's Citizenship efforts. We believe in transparency and partnerships, we respect human and labor rights, and we source responsibly. This reputation of trust and integrity, as well as holding all of our partners to these same standards, is what sets us apart.

17 PARTNERSHIPS FOR THE GOALS

P&G partners with U.N. agencies, the World Economic Forum, governments, civil society, NGOs, suppliers, retailers, industry associations and businesses as we work toward our goals to promote economic growth, equality and inclusion, protect our planet and improve lives.
