

2015 P&G Corporate Issue Advocacy & Ballot Initiative Spending	
Citizens for Cincinnati Parks	\$50,000
<p>Citizens of Cincinnati Parks supported State Issue 22, which would have created a permanent funding for city parks. City residents would pay a 1-mill tax levy to support city parks that would raise \$5.5 million in its first year. In the short term, that money would be used to help borrow money to improve 16 parks that would benefit 27 neighborhoods and do capital maintenance in other parks.</p>
