J-Craft Torpedo 'BaBeBi'

Turning heads at both Cannes and Monaco this year was J-Craft's [42-foot Torpedo BaBeBi](#). The Swedish builder's first Torpedo with a metallic-colored hull sports a beautiful brass and off-white interior enhanced by diamond stitching. It's twinned with serious functionality, capable of sailing in open water and certified to withstand 13-foot waves. Taking over 9,000 man-hours to build and fitted with two Volvo Penta IPS 650s, BaBeBi delivers a top speed of 47 knots. Equipped with lithium batteries for a full day on the water with the engines off, it has a 280-nautical mile range, a convertible open cockpit with two sundecks, and sleeps up to four guests for weekend retreats.
