

Certified Digital Health Professional

The Certified Digital Health Program is designed for all healthcare professionals, leaders, and executives currently serving or planning to serve in the healthcare digital space.

This program is designed to test one's knowledge and understanding in the larger healthcare IT industry by outlining three levels of certification: Professional, Leader, and Executive. Leadership experience and positional standing will make candidates eligible for a certain level of certification testing.

Credentialing is based on meeting the requirements outlined, continuing educational credits, and passing the CDH level examination.

PREREQUISITES

Eligible candidates for the CDH-P level include, but are not limited to, management positions sales marketing entry-level IT positions, and healthcare graduate students.

To enroll in the CDH-P Program, applicants must have:

- 1 year in healthcare occupation
OR
- Healthcare-related degree

PROGRAM ENROLLMENT: \$195

Professional level includes:

- CDH-P Application
- CDH-P Examination
- CDH-P study materials (CDH-P Exam Blueprint, reading materials, practice test, and gap assessment)

COMPLETION

All candidates need a minimum of 10 CEUs earned within the last year from their examination date, have passed the CDH-P examination, and met eligibility requirements.
