

Connect with a peer group of diverse digital health executives and leaders from around the world. Each member brings a unique set of experiences, areas of expertise, knowledge and career goals. We have built our education, resources and support to help serve the dynamic needs of our members; continuously growing and adapting our offerings as the healthcare industry changes and evolves.

ENGAGEMENT	DESCRIPTION
Searchable Member Database	CHIME membership is made up of digital health leaders across the country and the world. Search our membership by name, organization or location.
myCHIME Social Community	Connect on this secure platform that hosts a variety of health IT-related communities. Join conversations, ask questions and collaborate with leaders inside CHIME as well as externally in the broader healthcare ecosystem.
Member-to-Member Surveys	These surveys are an easy, time-saving tool members use to collect data from their peers and other industry leaders.
Mentor Program	The CHIME Mentor Program encourages CHIME members in various stages of their career to connect with each other. These pairings discuss challenges, issues and developmental needs to facilitate development of their skill set as a digital health leader.
Committees	CHIME committees develop and manage many programs and initiatives that advance the organization's mission and success. These participating industry leaders are responsible for the tactical direction and activities that provide value to our members in areas like education, certification, recognition, public policy and membership.
Ambassador Program	As an Ambassador, you will form close relationships with fellow members to share information, best practices, collaborate and keep the CHIME community strong. Through your involvement, you have the opportunity to earn a complimentary year of CHIME membership.

EVENTS AND EDUCATION	DESCRIPTION
Annual Forums	Whether in-person, virtual or hybrid, the CHIME community connects each year for these energizing and impactful educational and networking events. Take advantage of education at its finest, delivered by industry thought leaders via panels, keynotes, breakout sessions, track sessions and more! These programs deliver the latest on hot digital health topics in high-energy learning environments with plenty of opportunities for networking with your peers.

Annual Forums

One of CHIME's most popular professional development programs, the Healthcare CIO Boot Camp delivers expert faculty from health systems around the world. Because of its long-standing success, we have built out additional programs based on this model including the Clinical Informatics Leadership Boot Camp and the Healthcare CISO Boot Camp - unique learning experiences and curriculum to align with the diverse roles of our members. Attendees engage and learn through case studies, group work, discussions and more. Whether you attend in-person or virtually, you are sure to leave with an invaluable knowledge, resources and inspiration to take back to your team and organization, and no doubt, some lasting relationships with your classmates.

CHIME's Ignite Digital Health Learning Platform

Gain access to this engaging virtual learning platform and learn alongside your provider colleagues. Find valuable free resources, self-paced and expert-led courses for you and your team developed by a team of specialized instructional engineers and healthcare leader faculty and program directors.

Online Education Sessions (On-demand Archives)

Take advantage of online learning covering a variety of industry topics you need to know to keep you and your team ahead of the curve. We record every session so if you aren't able to attend live, you can listen and learn at your convenience.

CHIME Foundation Focus Groups (Virtual+ In-person at Events)

Provide your insight as a healthcare IT leader and learn from peers in dialogue with CHIME's Foundation partner firms. The collaborative conversations between members and Foundation partners are key to transforming health and care.

CERTIFICATION & PROFESSIONAL DEVELOPMENT

DESCRIPTION

Education Scholarships and Registration Waivers

CHIME believes in supporting members in their professional growth and building the next generation of digital health leaders through education. The CHIME Education Foundation and Ignite Digital Health Learning offer scholarships and registration waivers for many of the educational programs.

Certified Healthcare CIO Program (CHCIO)

The CHIME Certified Healthcare CIO (CHCIO) program is the first certification program exclusively for CIOs and IT executives in the healthcare industry. A CHCIO demonstrates the commitment, knowledge and experience required to master the core skills inherent to successful healthcare CIOs and IT executives.

Certified Healthcare Information Security Leader (CHISL)

The Certified Healthcare Information Security Leader (CHISL) is a Strategic Executive who demonstrates dynamic, forward-thinking leadership with technical proficiency and tactical knowledge. Above all else, the CHISL is a communicator both externally and internally to the organization. They lead networks of people managing the protection of networks on which the healthcare industry depends to deliver safe and efficient care. Each CHISL contributes to the overall protection of the Healthcare Infrastructure.

Job Postings

CHIME is committed to advancing the role of CIOs and senior digital health leaders in support of improved health and healthcare in our communities. We strive to provide a highly interactive, trusted environment enabling senior professionals and industry leaders to connect through effective and meaningful opportunities.

CHIME Career Center

The CHIME Career Center assists digital health leaders looking to further their career advancement and supports Foundation firms searching to hire the best candidates in the industry.

Speaking and Presentation Opportunities

Grow your brand and share knowledge with your peers with numerous opportunities to participate in various thought leadership programs and events.

AWARDS & RECOGNITION

DESCRIPTION

Awards and Fellows Program

We recognize the hard work and achievements of our members. Nominations for these awards come from your peers in the CHIME community and award winners are celebrated in a variety of platforms and programs.

NEWS & RESEARCH

DESCRIPTION

Member Alerts and Press Releases

Hear it first from CHIME! As we release breaking news in the industry, in the policy world or within our CHIME community, you will hear about it before we share information with the public.

Digital Health Most Wired

CHIME's "Digital Health Most Wired" program's mission is to elevate the health and care of communities around the world by encouraging the optimal use of information technology. The program conducts an annual survey to identify, recognize and certify the adoption, implementation and use of information technology by healthcare provider organizations. The results are intended to improve patient safety and outcomes by driving change in the industry.

Innovation Programs

CHIME's Innovation programs include innovation-focused education, facilitation, and both physical and virtual centers and labs designed around collaboratively solving healthcare problems.

PUBLIC POLICY

DESCRIPTION

Public Policy Steering Committee

Through member-led workgroups and our Policy Steering Committee, CHIME serves as the voice of digital health executives in Washington, D.C., informing and influencing federal policies meant to transform the delivery of health and care in the United States using information technology.

Policy Workgroup Participation

Members are invited to join any number of ad-hoc, policy-focused workgroups on policy priorities ranging from cybersecurity, interoperability, telehealth, privacy, unique patient identification, next generation technology and more.

Washington Debrief

Benefit from weekly communications directly from our CHIME Public Policy team working for you in Washington D.C., empowering your voice on important policy matters. Stay on top of the latest developments in our nation's capitol, and engage with this team and policy leaders for valuable webinars.

Policy Webinars

Join our targeted and timely policy webinars breaking down complex federal mandates and policies into practical translations for our members. In 2020 we hosted 22 webinars on numerous, timely health IT topics.

VALUABLE RESOURCES	DESCRIPTION
COVID-19 Resource Center	This Center was born with the mission to share COVID-19 knowledge and resources with CHIME members and the larger healthcare ecosystem. Thought leaders have contributed to this resource from around the world, sharing best practices, wins and losses. The COVID-19 Resource Center has been a largescale example of how we can collaborate to transform health and care.
Public Policy on chimecentral.org	The Public Policy pages hosted within the CHIME website provide members with informational resources including “cheat sheets: our policy team’s letters advocating for your rights, and upcoming educational programs and events.
Opioid Action Center CIO Playbook	Designed to increase awareness and education around prevention and treatment of opioid addiction using IT-based solutions and practices, the Playbook is your guidebook to supporting and implementing best-practices in your hospital to combat the opioid epidemic.
Digital Health Communities	This secure online platform hosts a variety of digital health communities. Engage in conversations, ask questions and collaborate with leaders both inside CHIME and outside of membership in the broader healthcare ecosystem.

SERVICES	DESCRIPTION
Cooperative Member Services	Leverage the IT services and solutions offered exclusively by CHIME Foundation firms at discounted rates and special programs through the CHIME Cooperative Member Services Program to help your organization succeed and save time, capital and resources.
CHIME Foundation Directory	CHIME Foundation firms are committed industry partners who offer CHIME’s CIOs and senior digital health executives solutions, services and support. Members have access to a CHIME Foundation directory, where they can search organizations by alpha listing or by solutions/services.
