

Certified Digital Health Leader

The Certified Digital Health Program is designed for all healthcare professionals, leaders, and executives currently serving or planning to serve in the healthcare digital space.

This program is designed to test one's knowledge and understanding in the larger healthcare IT industry by outlining three levels of certification: Professional, Leader, and Executive. Leadership experience and positional standing will make candidates eligible for a certain level of certification testing.

Credentialing is based on meeting the requirements outlined, continuing educational credits, and passing the CDH level examination.

PREREQUISITES

Eligible candidates for the CDH-L level include, but are not limited to, team/client leads specialists nurses, directors and other similar positions.

To enroll in the CDH-L Program, applicants must have:

- 1-3 years' healthcare leadership experience OR
- CHIME/A-Group Membership OR
- CHIME Boot Camp or Leadership Academy

COMPLETION

All candidates need a minimum of 10 CEUs earned within the last year from their examination date, have passed the CDH-L examination, and met eligibility requirements.

PROGRAM ENROLLMENT: \$395

Leader level includes:

- CDH-L Application
- CDH-L Examination
- CDH-L study materials (CDH-L Exam Blueprint, reading materials, practice test, and gap assessment)
