

Virginia Hospital Center Health (VHC Health) seeks a dynamic and experienced executive to serve as its next Senior Vice President and Chief Information Officer (CIO). The CIO will be responsible for leading information technology at one of the most well-known and successful health systems in the region.

VHC Health is a 453-bed, Magnet designated facility located in Arlington, Virginia. The National Capital Region is comprised of approximately 10 million residents. The healthcare market is very competitive and by all accounts VHC Health stands out as one of the premier organizations in the region. VHC Health continues to achieve numerous accolades, including a Leapfrog Hospital Safety Score of A for the 19th consecutive grading period. Long-tenured employees and high patient satisfaction combined with high-quality healthcare outcomes have led to the many years of continued success. With net patient revenues of approximately \$900 million and consistent positive operating margins, VHC Health has been able to continue to reinvest in its future and recently had its bond rating reaffirmed by Fitch as AA-.

The CIO will report to the Chief Executive Officer and will serve as a key member of the senior leadership team. The CIO will provide strategic and operational leadership to guide the future direction of information technology and enable high quality service to clinical and business operations. This position will be responsible for executing on the strategic vision, engage in long term planning, and provide overall accountability for the IT function. The CIO will ensure that the IT division's operations support the organizational mission, goals and objectives, as well as provide leadership and direction in the implementation and evaluation activities of all areas of information technology. A key task for the CIO will be to fully evaluate and transform the IT department into a strategic partner that enables leadership and staff and connects the health system through the utilization of technology.

Other areas of focus include improving the technology infrastructure, continuing to advance the cybersecurity program, and refining the IT governance processes to ensure effective prioritization of technology initiatives and investments. The CIO will lead these efforts, in particular implementing technology with a focus on optimizing current systems to increase clinical efficiency with the goal of providing high-value care.

The CIO will be a genuine leader who can create a vision and deliver results in a growing and evolving healthcare organization. The ideal candidate will be a talented executive with a track record of success leading IT working within a healthcare provider setting. The CIO will be a strategist and will bring system level thinking while focusing on the mission and direction of VHC Health. The CIO will be an effective communicator who is team oriented and can build strong collaborative relationships and effectively prioritize and maximize IT resources.

Inquiries, nominations and applications are invited. Please direct all application materials to Scott Dethloff via the WittKieffer Candidate Portal <https://apptrkr.com/5438883>.
