

# The State of New Teacher Mentoring

Torace can support every state from those where there are no current mentoring requirements in place to states with established rules, guidance or supports.

The following map depicts data from the Education Commission of the States (ECS) [50-State Comparison on Teacher Recruitment and Retention](https://reports.ecs.org/comparisons/teacher-recruitment-and-retention-2022-07). In 2022, the ECS reviewed state statutes and regulations for state induction programs or mentor support requirements. State requirements vary and more detailed state-by-state information is provided in the report linked above.

## How Torace Can Support

- Simplify the process of recruiting and vetting qualified mentors.
- Save time on logistics so that staff can focus on providing high value supports.
- Use Torace Profiles and Preferences to create strong mentor matches 1-year programs and personalize learning for multi-year programs.
- Leverage Torace data for easy tracking and reporting.
- Launch new creative novice mentoring like “cross-site buddy mentoring” or strengthen existing programs by increasing transparency, visibility, and recognition.
