HOW IT WORKS

Success on YouTube is about more than just views. Vision keeps you focused on the metrics that matter.

vidIQ Score

Helps judge the likelihood of a video being promoted in Related Videos, Search, and Recommended Videos.

Words Per Minute

We tell you how many words per minute a video has. The most successful videos have higher WPM (~220).

Average Watch Time

You're now able to see Watch Time not just for your own videos but for any video you're looking at.

Tags

YouTube recently started hiding video tags. We surface them so you can see what your competitors are using for SEO.

Facebook Likes/Shares/Comments

See how many times someone on Facebook has Liked, Shared or included your video's URL in a comment.

Description Link Count

We tell you the best number of links to add to your video description.

Tweets

See how many times someone has included your video's URL in a Tweet as well as the actual tweets themselves.

Description Word Count

We tell you whether your description is too short or just right.

“vidIQ Vision will help you learn what's working on YouTube and what's not so you can make your channel even better.”
