### HOW INTEREST IS EARNED ON YOUR ACCOUNT

Daily Balance Computation Method -- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. Tailored Checking accounts earn interest at the interest rate and annual percentage yield in effect for the portion of the account balance within each appropriate tier. For example, if your account balance is \$110,000.00, you would earn the then current rate for the first two balance tiers (\$0.00 - \$99,999.99) for \$99,999.99 of the balance. You would earn the then current rate for the third balance tier (\$100,000.00 and more) for the remaining \$10,000.00 of your account balance.

Accrued interest is credited to the balance in the account on the last business day of the statement cycle. We use a monthly statement cycle. Accrued interest that is credited to the balance in the account begins to earn interest no later than the next business day and compounds with each statement cycle.

If you close your account or convert your account to a non-interest bearing account before accrued interest, if any, is credited you will not receive the accrued interest.

The following chart shows the annual percentage yield ("APY") and interest rate effective as of February 13, 2025. Interest rates and the annual percentage yield are variable and are subject to change at any time at the discretion of the bank. Rates may change prior to funding and any interest being earned.

Portion of Balance Earning Rate	Interest Rate	APY Range
\$0.00 - \$499.99	0.25%	0.25%
\$500.00- \$99,999.99	0.25%	0.25%
\$100,000.00 and more	0.10%	0.25% - 0.10%

### CASH BACK REWARDS

The Debit Card Rewards Program ("Cash Back Rewards") provides 1.00% cash-back on all Qualified Purchases using a debit card tied to an Eligible Account.

Eligible Accounts are: Tailored Checking accounts that maintain an average monthly balance of \$500.00 for the calendar month in review.

Qualified Purchases are defined as: Signature-based purchases made using the debit card tied to an Eligible Account. These are "credit" purchases that can be made in stores and online. To make a signature-based purchase, select "credit" rather than debit at point-of-sale kiosks. The "credit" option is most often pre-selected when making purchases online using a debit card. Online subscription payments may not be considered signature-based purchases. The payment transaction type (signature-based or other) is ultimately decided by the merchant and is based on how the transaction is transmitted at the time of processing. Qualified Purchases do not include: (1) any goods or services purchased that are returned or otherwise credited to your Eligible Account; (2) unlawful purchases; or (3) purchases of currency, cash or cash equivalents (including, without limitation, currency from the U.S. Mint, Travelers Checks, gift cards, cryptocurrency, casino chips, peer to peer payments, prepaid debit cards, account openings, loan payments, or other cash equivalents).

We may report the value of Cash Back Rewards to the IRS as required by law. Any client whose tax status would require us to impose tax withholding of any sort will not be eligible for Cash Back Rewards.

Accounts are reviewed after the end of each month. Any earned Cash Back Rewards will be credited to your account on or before the 10th calendar day of the next calendar month. The Eligible Account must be open and active at the time the Cash Back Reward is credited.
