HOW INTEREST IS EARNED ON YOUR ACCOUNT

Daily Balance Computation Method — We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. Your account earns interest on the entire account balance each day at the interest rate and annual percentage yield in effect for the appropriate balance tier. Accrued interest is credited to the balance in the account on the last business day of the statement cycle. We use a monthly statement cycle. Accrued interest that is credited to the balance in the account begins to earn interest no later than the next business day and compounds with each statement cycle.

If you close your account before accrued interest, if any, is credited you will receive the accrued interest.

The following chart shows the annual percentage yield ("APY") and interest rate effective as of 7/11/2025. Interest rates and APYs are variable and are subject to change without notice at any time, at the sole discretion of the bank.

LevelUp Rate ²		
Balance to Earn Interest	Interest Rate	APY
All Balances	4.12%	4.20%
Standard Rate ²		
Balance to Earn Interest	Interest Rate	APY
All Balances	3.15%	3.20%

² The **LevelUp Rate** is applied to the full balance of LevelUp Savings accounts that receive a total of at least \$250 in deposits during the Evaluation Period. Otherwise, accounts will earn the **Standard Rate**. Interest payments, account bonuses, account credits and reversals or refunds from the bank are not considered deposits for rate evaluation purposes. All LevelUp Savings accounts earn the LevelUp Rate at account opening and continue to earn the LevelUp Rate until the First Evaluation Period, to provide an opportunity to set up deposits. While accounts will not move from the LevelUp Rate prior to the First Evaluation Period, the LevelUp Rate is variable and subject to change at any time, including prior to the First Evaluation Period.

An **Evaluation Period** is a statement cycle. The **First Evaluation Period** will be the third statement cycle after you open your account, with any rate change becoming effective the next statement cycle. For example, if you open in August, the first Evaluation Period would be October with any rate change effective in November. Any rate changes will take place at the end of the first business day of the month and will be based on deposits in the previous statement cycle.
