## BUSINESS HIGH-YIELD SAVINGS

### ZERO BALANCE ACCOUNTS

If your account reaches and maintains a zero balance for a period of more than 6 months, the Bank reserves the right to either keep the account open or close the account without further notice.

### HOW INTEREST IS EARNED ON YOUR ACCOUNT

Daily Balance Computation Method -- We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. Your account earns interest on the entire account balance each day at the interest rate and annual percentage yield in effect for the appropriate balance tier. Accrued interest is credited to the balance in the account on the last business day of the statement cycle. We use a monthly statement cycle. Accrued interest that is credited to the balance in the account begins to earn interest no later than the next business day and compounds with each statement cycle.

Accrued interest is credited to the balance in the account on the last business day of the statement cycle. We use a monthly statement cycle. Accrued interest that is credited to the balance in the account begins to earn interest no later than the next business day and compounds with each statement cycle.

If you close your account or convert your account to a non-interest bearing account before accrued interest, if any, is credited you will not receive the accrued interest.

The following chart shows the annual percentage yield ("APY") and interest rate effective as of December 9, 2022. Interest rates and the annual percentage yield are variable and are subject to change at any time at the discretion of the bank. Rates may change prior to funding and any interest being earned.

Balance to Earn Interest	Interest Rate	APY
\$0.00 - \$9.99	3.54%	3.60%
\$10.00 - \$2,499.99	3.54%	3.60%
\$2,500.00 - 24,999.99	3.54%	3.60%
\$25,000 or more	3.54%	3.60%
