

BMI Icopal Tecnatorch

Concrete Deck: Warm Roof System

System features and benefits

- Safer low-flame application thanks to our technically advanced, low-heat-reactive SBS modified bitumen formulation
- A range of capsheet colours are available to suit every project
- Designed and manufactured in the UK to meet our unique environment and project demands
- Tecnatorch is one of the UK's most trusted flat roofing systems, used by generations of roofing professionals nationwide
- Tecnatorch brings the roof performance you'd expect from Icopal to every kind of flat roofing project, with robust, durable materials that you can rely on to help you deliver a professional finish
- Widely available nationwide from specialist stockists
- Easy to handle, work with and install to a quality finish
- Reduced gas consumption and faster installation thanks to our unique mini groove profile technology
- Tecnatorch can be covered by an Icopal product guarantee of up to 20 years, as well as the option of a full 15-year system guarantee when installed by an Icopal-approved contractor
