

4. Possible side-effects

Like all medicines, this medicine can cause side-effects, although not everybody gets them.

If you experience any of the following stop using the medicine and seek medical help immediately:

- Allergic reactions including skin rashes (which may be severe and include blistering and peeling of the skin) and itching.

Other effects that may occur include:

- Nausea, vomiting, stomach pain or diarrhoea.

Reporting of side-effects

If you experience any side-effects, talk to your doctor, pharmacist or nurse. This includes any possible side-effects not listed here. You can also report side-effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard or search for MHRA Yellow Card in the Google Play or Apple App Store. By reporting side-effects, you can help provide more information on the safety of this medicine.

5. Storing this medicine

Do not store this product above 30 °C.

Store in the original container.

Do not use if bottle seal is broken when purchased.

Keep the product out of the sight and reach of children.

Do not use your medicine after the date shown as an expiry date on the packaging. Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment. Retain carton for full instructions.

6. Further information: What's in this medicine?

The active ingredients in 5 ml of Benylin Chesty

Coughs Non-Drowsy are: 100 mg Guaifenesin and 1.1 mg Levomenthol.

Other ingredients are: Sucrose, liquid glucose, ethanol, glycerol, sodium citrate, saccharin sodium, citric acid monohydrate, sodium benzoate (E211), Ponceau 4R (E124), caramel (E150), carbomer, raspberry essence, natural sweetness enhancer and water.

What the medicine looks like

Benylin Chesty Coughs Non-Drowsy is a clear red syrup, available in 125 ml, 150 ml and 300 ml glass bottles.

CHESTY COUGHS NON-DROWSY

Guaifenesin & Levomenthol

- ✓ Deep penetrating relief
- ✓ Absorbs in 15 minutes

When you're suffering from a deep, chesty cough, it still won't get on with your normal daily routine. Benylin Chesty Coughs Non-Drowsy works deep down to loosen phlegm, clear bronchial congestion, and make your cough more productive.

1. What the medicine is for

Benylin Chesty Coughs Non-Drowsy is a medicine which is used to help relieve chesty coughs. It contains Guaifenesin (an expectorant) to help loosen mucus (phlegm) from the lungs and make it easier to cough up, and Levomenthol to help you breathe more easily by easing congestion.

The medicine is for use in adults and children aged 12 years and over.

2. Before taking this medicine

This medicine is suitable for most people but a few people should not use it. If you are in any doubt, talk to your doctor or pharmacist.

☒ Do not use this medicine

- If you have ever had a bad reaction to any of the ingredients.
- For a child under 12 years of age.

If any of these apply to you, get advice from a doctor or pharmacist without using Benylin Chesty Coughs Non-Drowsy.

⚠ Talk to your doctor or pharmacist

- If you suffer from liver or kidney problems.
- If you have been told by your doctor that you have an intolerance to some sugars.
- If you have had a cough for a few weeks that may be caused by asthma, or a cough which brings up a lot of mucus (phlegm).
- If you are taking alcohol.

If you are not sure about any of the medicines you are taking, show the bottle or pack to your pharmacist. If any of these bullet points apply to you now or in the past, talk to a doctor or pharmacist.
