

Ganzfeld ESP Research: Building on Lessons Learned

Bial
FOUNDATION

Grant # 190/18

RATIONALE

Aim: to resolve debate

Design features to optimise:

1. Psi
2. Integrity

METHOD

35-min impression period

Judge 4 random videos

Submit choice

Target video randomly designated

Session outcome: Hit/Miss?
(MCE = 25% hit-rate)

15 experimenters, 240 sessions

CONFIRMATORY

HYPOTHESIS:

Hit-rate > MCE

RESULTS

72 hits = 30% hit-rate

$p=.043$, $Z=1.714$

Independent 'puppeteering'
checks

DISCUSSION

No evidence of flaws

Results support precognition
hypothesis

Wider usefulness
