

# Integrating VR, EEG, and TMS to study the neural correlates of awe: the SUBRAIN protocol

E. Bondi, F. Carbone, M. Pizzolante, G. Schiena, A. Ferro, M. Mazzocut-Mis, A. Gaggioli, A. Chirico, P. Brambilla, E. Maggioni

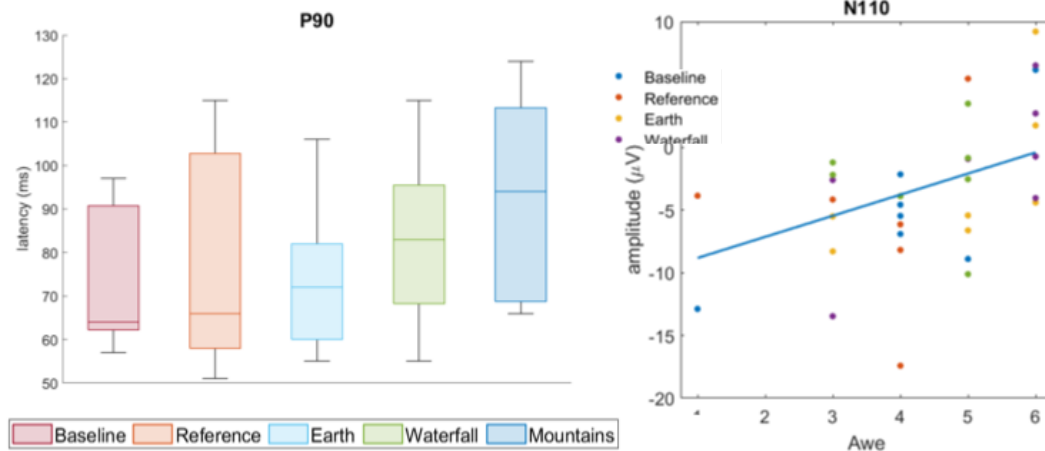

BIAL FOUNDATION GRANT PROGRAMME 288/20 (to Fondazione Policlinico of Milan, Milan, Italy)

## Experimental protocol

## TMS-EEG response to awe ( $p < 0.05$ )

## EEG responses to awe intensity
