

THUNDERBIRDS
ARE GO

PLANET EGGS

Form your own solar system by turning hard-boiled eggs into planets!

EQUIPMENT:

1. Hard-boiled eggs
2. A selection of glow-in-the-dark acrylic paints
3. Water
4. Vinegar
5. Bowls
6. Blacklight torch or light bulb

PLANET EGGS

Form your own solar system by turning hard-boiled eggs into planets!

STEP 1:

Add a generous amount of fluorescent paint to each bowl.

STEP 2:

Add 2/3 warm water to the bowls and stir.

PLANET EGGS

Form your own solar system by turning hard-boiled eggs into planets!

STEP 3:

Add 1/3 vinegar to the bowls and mix well. You should have a brightly coloured liquid in each bowl.

STEP 4:

Take your hard-boiled eggs and drop them into each of the fluorescent liquids in turn.

PLANET EGGS

Form your own solar system by turning hard-boiled eggs into planets!

STEP 5:

Remove the eggs and allow them to dry.

STEP 6:

Now put your eggs in a dark room, shine your blacklight and watch them become planets!

Blacklight Torch

or

Blacklight Bulb

NOTE:

The colours won't glow until you shine the blacklight on the planet eggs in a dark room!
