

HORST900

Simple. Fast. Powerful.

6-axis industrial robot HORST900

HORST offers 1 arm 6 axes and 1000 possibilities.

With our industrial robot HORST900, you will get off to a flying start in the age of digitalization. As a comprehensive robotic system, its performance spectrum enables a variety of industrial applications to be automated. HORST900 is very easy to program, offers maximum productivity and opens up all the possibilities of industry 4.0 to you.

Industrial robotics full of innovations

With its four-bar linkages, our 6-axis industrial robot HORST900 is based on an innovative drive concept. This makes it very powerful and provides it with an optimum ratio of range and payload.

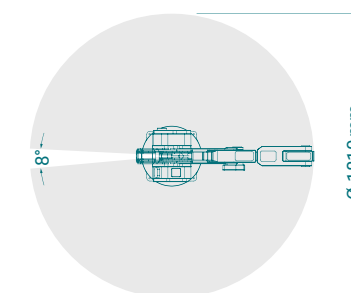

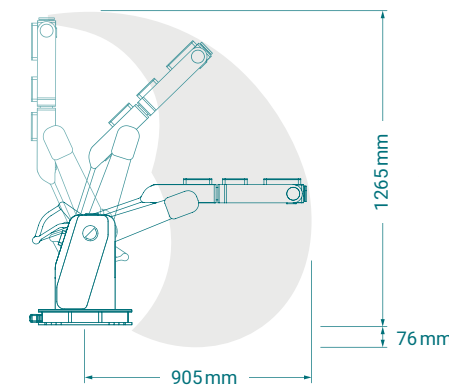

Equipment:

- 6-axis industrial robot HORST900
- Switch cabinet including complete safety control
- horstFX software
- Robot control panel including mount

Properties

- Unbeatable cost-benefit ratio
- Fast delivery, plug & produce
- On-site service and easy remote maintenance
- Help and support
- Developed, produced and sold in Germany

Ready to go with one touch

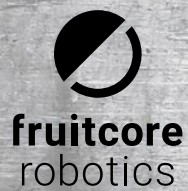

The smart way to operate HORST.

horstFX provides you with a graphical user interface. Intuitive and convenient design, specially developed for touchscreens, especially for the supplied control panel.

- Quick and easy programming
- No programming skills required
- Compact control panel with emergency stop button
- Interfaces for transferring programs and actuating external machines
- Regular performance and feature updates

We offer automation solutions tailored to your needs!

We provide you with a coordinated software and hardware architecture. Further information about our product portfolio can be found on our homepage www.fruitcore-robotics.com
