

HORST600

It's a big whoop, this little one!

6-axis industrial robot HORST600

Take it easy: Take HORST

With our industrial robot HORST, you will get off to a flying start in the age of digitalization. The comprehensive robotic system is ideally suited for the metal and plastics processing industries as well as medical and testing technology. HORST600 is versatile. Simplicity, performance and industry-specific features make HORST600 the robot of choice.

Small, fast and precise

HORST600 impresses with its well thought-out kinematics, the small space requirement and at the same time large work space. This results in maximum flexibility, even for applications with limited installation space.

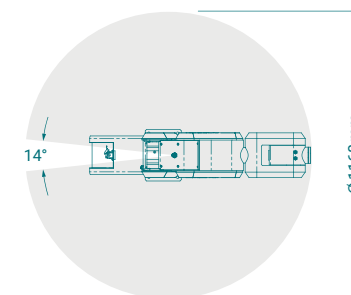

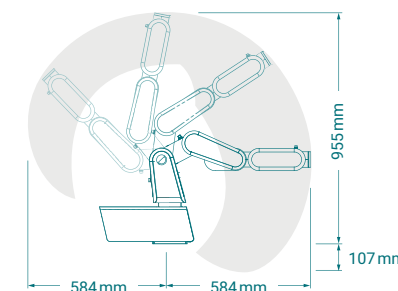

Equipment:

- 6-axis industrial robot HORST600
- Switch cabinet including complete safety control
- horstFX software
- Robot control panel including mount
- Sold in Germany

Properties

- Robust, quick and powerful
- Unbeatable cost-benefit ratio
- Fast delivery, plug & produce
- On-site service and easy remote maintenance
- Developed, produced and sold in Germany

Ready to go with one touch

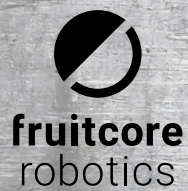

The smart way to operate HORST.

horstFX provides you with a graphical user interface. It was designed to be intuitive and convenient and developed specially for touchscreens, and the included operating panel in particular.

- Quick and easy programming
- No programming skills required
- Compact control panel with emergency stop button
- Interfaces for transferring programs and actuating external machines
- Regular performance and feature updates

We offer automation solutions tailored to your needs!

We provide you with a coordinated software and hardware architecture. Further information about our product portfolio can be found on our home-page www.fruitcore-robotics.com
