

## GRIPPER ASSEMBLY KIT STARTING SET

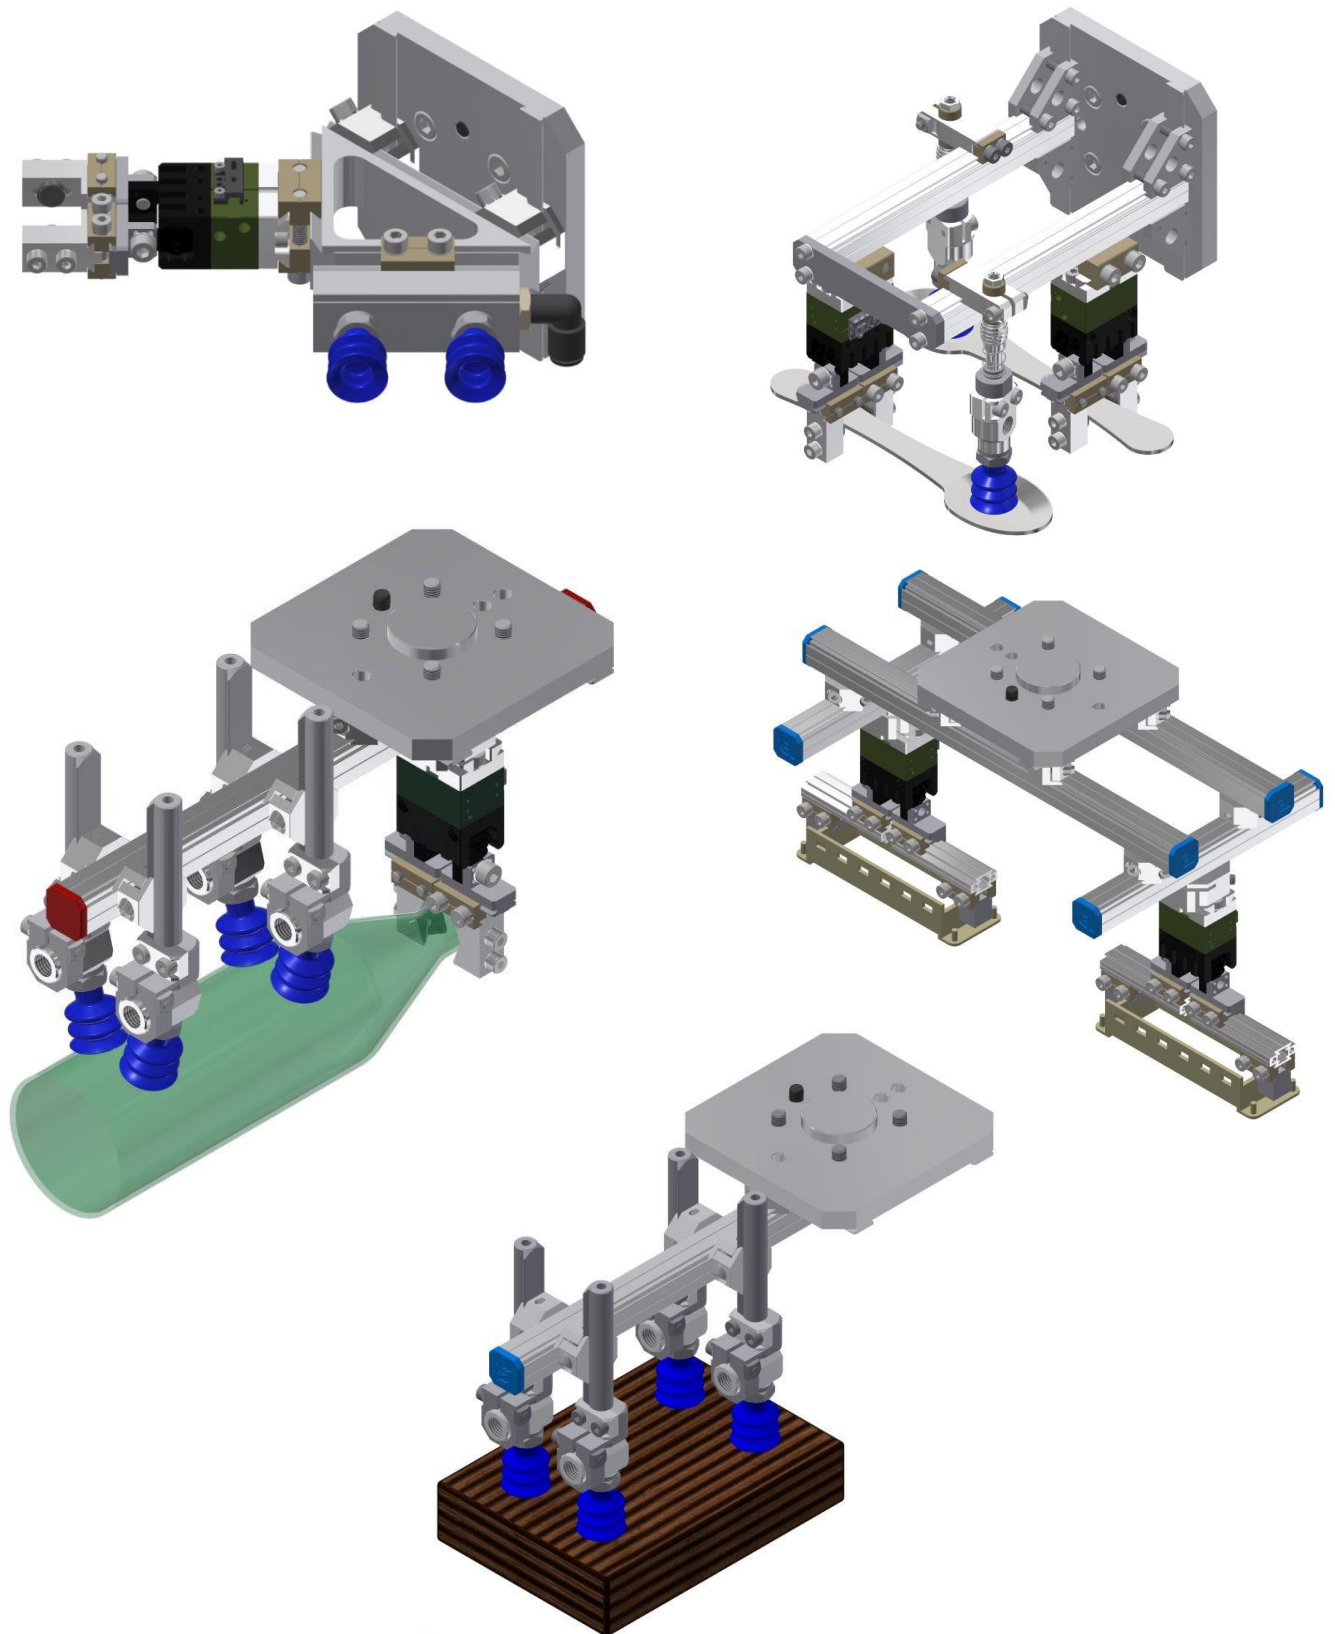

This set contains all the important components that you need to build the gripper: Starting with the tool, the gripper ground plate which is screwed directly to the robot via the drilling pattern, aluminium PreciGrip profiles with profile connectors, clamping pieces, gripper arms with vacuum suction cups and parallel grippers with corresponding adaption options. Last but not least, pneumatic fittings and pneumatic tubing are also available here. So an all-round carefree package.
