ROOM 3

Legend

Talk's complexity:

Introduction
to technologyFor practicing
engineers

Talk's language: RU EN

9:00 — 18:30

Registration

10:00 — 10:30

Conference opening

10:30 — 11:30

EN

Characters, community, and culture:
Important factors for prosperity

Timothy Lister, The Atlantic Systems Guild Inc.,
co-author of the "Peopleware: Productive
Projects and Teams"
#team

11:30 — 12:00

Break

12:00 — 13:00

EN

Serverless containers with Knative
and Cloud Run

Mete Atamel, Google
#kubernetes #bingo

EN

Scale your auditing events

Philipp Krenn, Elastic
#security #monitoring

RU

Terraform vs Helm:
Battle for infrastructure

Dmitry Gubenko, KURS
#devops_experience #self-building

13:00 — 13:45

Lunch

13:45 — 14:45

RU

Do it in code (not YAML)! Unlock power
of Kotlin DSL for Kubernetes

Victor Gamov, Confluent
Fedor Korotkov, Cirrus Labs
#anti_yaml #kafka #operators

RU

The unbearable lightness
of scaling pods in Kubernetes

Ivan Glushkov, Postmates
#controllers

EN

Delivering progressively with Jenkins X

Sebastian Daschner, IBM
#canary #db_compatibility

14:45 — 15:30

Lunch

15:30 — 16:30

EN

Pipelines & pods: DevOps
with Kubernetes

Burr Sutter, Red Hat
#ci/cd #openshift

RU

How to deal with Kafka
so it won't get Kafkaesque

Gregory Koshelev, Kontur
#monitoring #tooling

RU

10 years of on-call. What have
we learned?

Dmitriy Stolyarov, Flant
#team #monitoring

16:30 — 17:00

Break

17:00 — 18:00

RU

DevOps patterns and antipatterns
for continuous software updates

Baruch Sadogursky, JFrog
#horror_stories

EN

Flagging your features — a DevOps
approach to continuous release

Alex Thissen, Xpirit
#feature_management
#testing_in_production #cd #azure

RU

Ansible: Tractor mode. We create a roles
that will travel everywhere!

Konstantin Nifanin, MTS IT
#universal_role

18:00 — 18:30

Break

18:30 — 19:30

EN

Removing the barriers

Hadi Hariri, JetBrains
#leadership #team

19:30 — 23:00

Party

20:00 — 21:00

RU "Jeopardy" with Baruch Sadogursky

20:30 — 23:00

Lightning talks

RU **BOF session: "Struggle with complexity"**
Demo Stage

BOF session: "When will the K8s die?"

EN

Legend

Talk's complexity:

Introduction
to technologyFor practicing
engineers

Hardcore

Talk's language:

RU

EN

10:00 — 19:00

Registration

11:00 — 12:00

CDK and infrastructure as a code
Sergey Kurson, AWS
#imperative #anti-terraform

How to draw DevOps?
Igor Kurochkin, Express 42
#devops-topologies #book

How to steer MySQL steam boat
Nikolay Ihalaynen, Percona
#kubernetes #percona

12:00 — 12:30

Break

12:30 — 13:30

WTF do we need a service mesh?
Anton Weiss, Otomato Software
#service_mesh #kubernetes
#latest_news

Implementing microservices
architecture as Cloud Run application
Nikhil Barthwal, Google
#serverless #knative

Automating everything
with Github Actions
Nikita Sobolev, wemake.services
#Gitlab #github_actions

13:30 — 14:15

Lunch

14:15 — 15:15

From zero to DevOps superhero:
The container edition
Jessica Deen, Microsoft
#artifactory #kubernetes
#codefresh #draft #helm

Service mesh for building
multicloud systems
Alexander Lukyanchenko, Avito
#highload #kubernetes

The final story about operators
Fedor Chemashkin, Dell Technologies
#kubernetes #no_humans

15:15 — 16:00

Lunch

16:00 — 17:00

Making the Internet faster.
And sleeping well at night
Sergey Fedorov, Netflix
#fault-tolerance #monitoring

Under the hood of serverless Jenkins:
Jenkinsfile Runner
Oleg Nenashev, CloudBees
#run_everywhere #no_server

Mobile app development: DevOps or
not DevOps
Vladimir Ivanov, EPAM Systems
#ci/cd #pain #iOS #android

17:00 — 17:30

Break

17:30 — 18:30

The curse of infrastructure team
Alexey Kirpichnikov, Kontur
#case_study #horror_stories

Adapting your infrastructure to go multi-
Erik Veld, HashiCorp
#bingo #migration

CI of big projects in JetBrains
Anton Arhipov, JetBrains
#teamcity #case_study

18:30 — 19:00

Break

19:00 — 20:00

Why IT industry is entering its darkest era yet,
how DevOps is to blame and why Das Kapital can help
Roman Shaposhnik, ZEDED Inc.
#culture #team

20:00 — 20:30

Conference closing
