The AD Fact-Finding Clinic

Can you sort fact from fiction and bust misconceptions in AD?

Fact or Fiction?

1. **"Children with AD rarely need treatment – the disease can be managed by avoiding their triggers!"**

   True or False?

2. **"AD is something most children outgrow – it's rare to see adults with AD!"**

   True or False?

3. **"Children with AD present in a similar way to adults with AD"**

   True or False?

4. **"For children with moderate-to-severe AD, topical therapies alone can be insufficient for achieving long-term disease control"**

   True or False?

AD=Atopic Dermatitis; **HCP**=Healthcare Professional.
