

brightseed®
Bio Gut Fiber

Introducing Brightseed® *Bio Gut Fiber*

Prebiotic* Dietary Fiber with Bioactives for Gut Strength**

Help Keep Your Gut Strong

A healthy gut is intrinsically linked to overall health and wellness. In fact, 60% of consumers believe gut health to be important, but many struggle to know where to turn to support their gut.¹

- Dietary fiber can play a critical role in gut health, extending well beyond basic bowel function.
- Bio Gut Fiber acts as a prebiotic, supporting microbiome growth.*

Now, it's possible to not just support your gut, but keep it strong with Bio Gut Fiber.

A New Fiber with 2 Unique Bioactives

- The only dietary fiber ingredient with 2 naturally occurring bioactives NCT and NFT.
- Pre-clinical research demonstrates that NCT & NFT show promise to support gut lining and maintain a healthy gut barrier function.**
- A safe and sustainable dietary fiber, Bio Gut Fiber helps elevate functional foods and beverages to deliver gut health benefits to consumers.

Nearly

1/3

of consumers globally report increasing their fiber intake.

Brightseed Bio Gut Fiber: Disrupting the Fiber Category

Going Beyond Gut Regularity

Supports gut health and gut lining for healthy gut barrier function and prebiotic benefits.*

Effective Fiber Source

A high concentration of dietary fiber makes it easier to achieve a good source of fiber in finished products.

Safety & Quality

Self-GRAS Affirmed, Kosher & Halal Certified, Non-GMO Project verified, and made from industrial-grade hemp.

Upcycled Certified

Brightseed Bio Gut Fiber is a whole food ingredient produced only from upcycled hemp hulls.

Gentle Processing

Our patent pending process releases the greatest amount of bioactive compounds from the hemp hulls, preserving their fiber and nutrient content without using solvents or chemicals

Available in Organic

Brightseed Bio Gut Fiber is available in both conventional and Certified Organic.

Certified Organic by Pro-Cert

A new-to-market prebiotic* dietary fiber, and the only one containing *the bioactives NCT & NFT.*

Bioactives for Gut Health

- Bioactives are plant's natural chemicals that have health-promoting effects in our bodies, and are fundamental to our wellbeing.
- They trigger biological responses that support health and daily functioning.

NCT

NFT

Discovered by Forager®

- Brightseed® Bio Gut Fiber contains two bioactive compounds associated with gut health:
 - NCT: N-trans-Caffeoyltyramine
 - NFT: N-trans-Feruloyltyramine
- Our Forager AI technology discovered the potential gut health benefits of these bioactive compounds, and identified hemp hulls as the richest known source of NCT & NFT.
- Together, NCT and NFT have the potential to support gut strength.

Application Possibilities

Brightseed Bio Gut Fiber is the perfect pairing for a range of functional food and beverage applications.

Nutritional Beverages

Baked Goods

Cereals & Granolas

Powdered Beverages

Crackers

Bars

57%

of consumers are interested in seeking out foods, beverages, and supplements that contain bioactives.
