

David Ogden Rychlin

Senior Lecturer, MIT

Computer Science Professor

He has published over 100 papers in the field of

computer science, including work on the design and analysis of algorithms.

His research interests include the theory of computation, complexity theory, and the design of efficient algorithms.

He has also published several books on computer science, including "Introduction to the Theory of Computation".

He is currently a Senior Lecturer at MIT, where he teaches the course "Introduction to the Theory of Computation".
