

Story stick questions

Story sticks help kids think about the different elements in a story. Cut out the questions and glue each one to a craft stick. When reading together, stop every so often and hand kids a stick to use as a prompt.

(Who are the characters?)

(What happened next?)

(What is the setting?)

(What is the story about?)

(What is the problem in this story?)

(How did the problem get solved?)

(How did this story begin? How did this story end?)

(What happened in the middle of the story?)
