Goodis brand

WORTEN PRESENTS A NEW RANGE OF CARRY CASES FOR LAPTOPS AND CAMERAS

Goodis, Worten's brand of accessories for the IT, telecommunications and hi-fi areas, has just presented another novelty for the festive season: a range of carry cases for laptops and cameras. This new range has a young, attractive design at accessible prices and is available from all Worten stores.

The light but resistant range of laptop carry cases is ideal for anyone who has to transport and protect their laptop on a daily basis. They are available in several different colours and are on sale at Worten stores from as little as €15.99.

The line of camera cases, on the other hand, has a very stylish image, while ensuring the device is completely protected. All the cases have lots of compartments to store camera accessories and the range is now available from just €12.99.

Goodis is a Worten accessory brand, which was launched in December 2012 to present quality products with attractive design and mood at accessible prices.
