WORTEN SUPPORTS LAYING OF THE 1ST STONE AT THE 'CASA ACREDITAR' HOME IN OPORTO

The first stone was laid for the 'Casa Acreditar' home in Oporto on 15 February at an event that involved families, volunteers, sponsors, friends and founders of 'Acreditar', an association of parents and friends of children with cancer. Worten is supporting the construction of this space and has donated €185,000 to the project through the 'Código DáVinte' initiative.

This new home is to be built beside the Oporto Cancer Hospital (IPO) on land given by the health ministry and is scheduled to open in 2016.

The space is going to have capacity to receive 16 families, free of charge, along with the children who are being treated at the IPO. The association estimates that this third home can receive about 100 families a year and thus respond to the pressing needs of accommodation close to the hospital for families of children and youths with cancer who live outside the greater Oporto area.

Recall that this Worten donation is the result of the social responsibility campaign, called Código DáVinte, run last Christmas and up until 6 January.

During that time, Worten, with the help of its customers, collected €185,000, which was all given to 'Acreditar' an association that has been working for the past 20 years to help children and youths with cancer, trying to reduce the impact of the disease on these families.
