Usage & Safety Guidelines

Alprazolam is a **potent prescription medication**, and responsible use ensures best results. Whether you're treating panic attacks or generalized anxiety, always **follow recommended dosage** and medical advice.

Here are a few important tips:

- Take only the prescribed dose — usually once or twice daily.
- Avoid alcohol, sedatives, or opioids while taking Alprazolam.
- Store your medication securely away from moisture and heat.
- Do not share your prescription with others, even if symptoms seem similar.
- If you miss a dose, take it when remembered unless it's almost time for the next one.

 **Important:** Long-term use can cause dependency. For continuous treatment, always consult your healthcare provider.
