

Sponsor a Station

Empower your residents, tenants, and/or customers with access to a transportation option that's green, fast, and fun. A sponsored station is an amenity for residents, tenants, or customers that makes getting around a breeze. Support sustainable transportation in the region.

Key Benefits

Good for your people,
good for your neighbors

A socially distant,
fun way to travel

Increase foot traffic
near your business

Invest in your
community

Pricing

Our smallest station contains 23 docks, parties can sponsor larger stations if space allows. Costs outlined do not include logistics fees.

Capital Cost

**\$90k/
up front**

Includes a 23 dock station and bikes (capital equipment, cost of installation)

How it Works

1 Station location and size

Our siting experts will help your team determine the best location for a Citi Bike station. Stations can be located in roadbeds, on sidewalks, or in plazas, and at varying sizes.

2 Install and maintain

Citi Bike stations do not require bolting to the ground or excavation. A station takes approximately 2 hours for our team to install. Citi Bike takes care of ongoing maintenance and cleaning.
