

Explorify Hosts...

The Association for Science Education

5. Communities in primary science

Links to resources discussed in the podcast

The Association for Science Education (ASE)

A membership organisation for science teachers providing support networks, free resources, and opportunities for professional development.

The Primary Science Quality Mark (PSQM)

A one-year professional development leadership programme for new and experienced primary science subject leaders.

SSERC

Support for STEM provision across Scotland, with a wealth of free resources and STEM enrichment programmes and professional development.

CLEAPSS

Guidance about carrying out practical science safely, plus a wealth of teaching ideas and resources.

The Great Science Share for Schools

An inclusive, non-competitive event for schools to raise the profile of science and for children to ask, investigate and share scientific questions.

Explorify

Over 800 digital image-based activities to encourage thinking and talking in science: minimal preparation, maximum participation.

The Primary Science Teaching Trust

Teaching and learning resources.

STEM Learning

CPD opportunities.
