

Volunteer and become a STEM Ambassador

Our volunteers offer their time and passion to visit schools, colleges and community groups to provide a link between STEM subjects, careers, and research and innovation.

Why should I volunteer?

By volunteering, you can help to inspire young people and raise their aspirations for the future. Engaging with the programme is a rewarding experience that can rejuvenate your own interests and job satisfaction.

sessions

“The role of a STEM Ambassador is to demystify science and to highlight that there is a role in STEM for everyone.”

**Camilla Cassidy,
STEM Ambassador**

More than

90%

of teachers said engaging with STEM Ambassadors has improved their students' awareness and ambitions in STEM

Get involved

Volunteer in a way that works for you. This can be as often as you like, online or in person. Some ideas are:

- classroom activities
- STEM Club activities
- careers talks
- networking events
- mentoring
- hosting work experience
- science festivals and fairs
- community and youth groups

How to become a STEM Ambassador
