IRRIGATION CONTRACTOR

The Louisiana Horticulture Law states that no person shall receive fees, advertise, or solicit business in a regulated profession or occupation unless he holds the appropriate license or permit, or has a regular employee who holds the appropriate license or permit, or is employed by a person who holds the appropriate license or permit. For specifics on what each license or permit authorizes, see Section 3808 of the Horticulture Commission Law. All licensees are required to place at least one of their license numbers on all business-related vehicles that have advertisements on them (Section 115D of regulations).

Irrigation Contractor License: Authorizes the holder to construct, install, connect, repair, maintain, improve or alter any portion of a landscape irrigation system, including the required wiring for that system. Requires the licensee to obtain a water supply protection specialist endorsement from the State Plumbing Board before connecting to a public or private water supply system or installing a backflow prevention device. Licensees must enter into a written contract with the property owner specifying the landscape irrigation services to be performed and the sum to be paid for the services.

This list will be updated periodically. If you have any questions, please call (225) 952-8100.
