1 day

Notes and Definitions

1. *EUROe in circulation* is the total EUROe supply on supported blockchains⁴ on the report date less access denied tokens. All values are rounded to the nearest cent.
2. *Fair value of assets in EUROe reserve* is the total balances of euro denominated assets held by Membrane Finance Oy with regulated financial institutions⁵ on behalf of EUROe clients on the report date.
3. Cash deposits are assigned a one-day maturity as they are immediately redeemable.
4. Supported blockchains: Arbitrum One, Avalanche (C-Chain) Ethereum, Polygon
5. Reserve assets held in financial institutions domiciled in the EEA: Bank Frick (Liechtenstein)
