Fair value of assets in EUROe reserve²

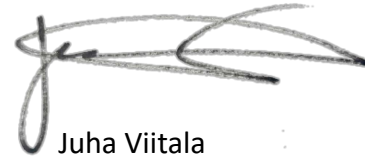

| | |
|-------------------------------|----------------|
| ... of which cash | € 1,642,971.15 |
| ... of which short-term bonds | € 0 |
| ... of which other assets | € 0 |
| Total | € 1,642,971.15 |

Weighted average maturity of reserve assets³

1 day

Notes and Definitions

1. *EUROe in circulation* is the total EUROe supply on supported blockchains⁴ on the report date less access denied tokens. All values are rounded to the nearest cent.
2. *Fair value of assets in EUROe reserve* is the total balances of euro denominated assets held by Membrane Finance Oy with regulated financial institutions⁵ on behalf of EUROe clients on the report date.
3. Cash deposits are assigned a one-day maturity as they are immediately redeemable.
4. Supported blockchains: Arbitrum One, Avalanche (C-Chain), Ethereum, Polygon PoS
5. Reserve assets held in financial institutions domiciled in the EEA: Bank Frick (Liechtenstein), Osuuspankki (Finland)
