

GRADE 5 LESSON: RAINING CATS AND DOGS

GOALS

The overall purpose of this lesson is to

1. educate students on the dangers of negligent behavior as a pet owner;
2. give students the tools to be responsible and empathetic pet owners.

STUDENT OBJECTIVES

After this lesson students will be able to

1. understand the risks of irresponsible pet ownership;
2. understand and be able to define the terms vaccination, overpopulation, spay, and neuter;
3. understand the importance of vaccinating, spaying and neutering pets;
4. understand some of the services that the KWSPHS offers to the animals in their care, and understand why these services are important
5. understand how they can be responsible animal advocates, and how their actions benefit themselves, their family and friends, other species and the environment.

Curriculum Connections

HEALTH AND PHYSICAL EDUCATION

SPECIFIC EXPECTATIONS

B1.3 identify factors that can either motivate or make it difficult for people to be physically active every day

D2.1 explain how to use nutrition fact tables and ingredient lists on food labels to make informed choices about healthy and safe foods

LANGUAGE

SPECIFIC EXPECTATIONS
