

How to correct DS-160 barcode:

- 1. Log in to your [profile](#).
- 2. To correct the DS-160 **barcode**, you will need to select "Close Application and Start New Application."
- 3. If you have an open application without a future appointment, please select "Close Application and Start New Application."

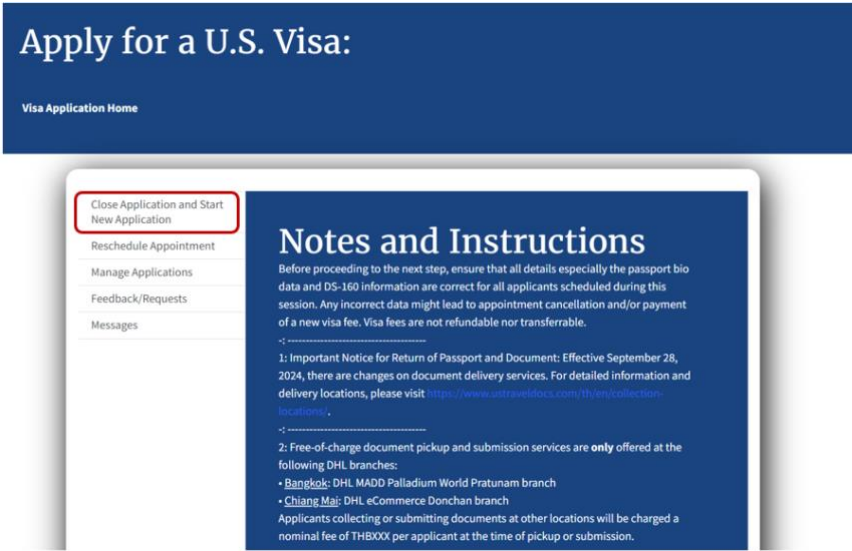

- 4. If you have a scheduled appointment, you will need to cancel your appointment. (You will lose one scheduling opportunity). Select "Manage Appointments," and confirm the cancellation.

5. Please allow one business day for the selection "Close Application and Start New Application" to appear. Once available, confirm this selection to start a new application.

6. Enter the correct DS-160 **barcode** during the scheduling appointment process.

Additional Options:

[Visa Application Home](#) > [Applicant Details](#) > [Visa Options](#) > **Additional Options**

DS-160 or DS-260 confirmation as applicable

Please enter a properly completed recent DS-160 number. Otherwise, you may have to correct your application and reschedule your visa interview appointment. Please refer to our [website](#) on DS-160 information.

## Notes and Instructions

Before proceeding to the next step, ensure that all details especially the passport bio data and DS-160 information are correct for all applicants scheduled during this session. Any incorrect data might lead to appointment cancellation and/or payment of a new visa fee. Visa fees are not refundable nor transferrable.

1: Important Notice for Return of Passport and Document: Effective September 28, 2024, there are changes on document delivery services. For detailed information and delivery locations, please visit <https://www.ustraveldocs.com/th/en/collection>
