

# \$3 prescriptions to help you stay healthy

A guide to finding more affordable meds

oscar

We launched Oscar with the belief that we can improve the whole health care system for everyone. That's why we reinvented the way we handle prescriptions.

The price of a drug should never be the reason you don't take it as prescribed. Getting the right meds at the right dosage is a key part of staying healthy.

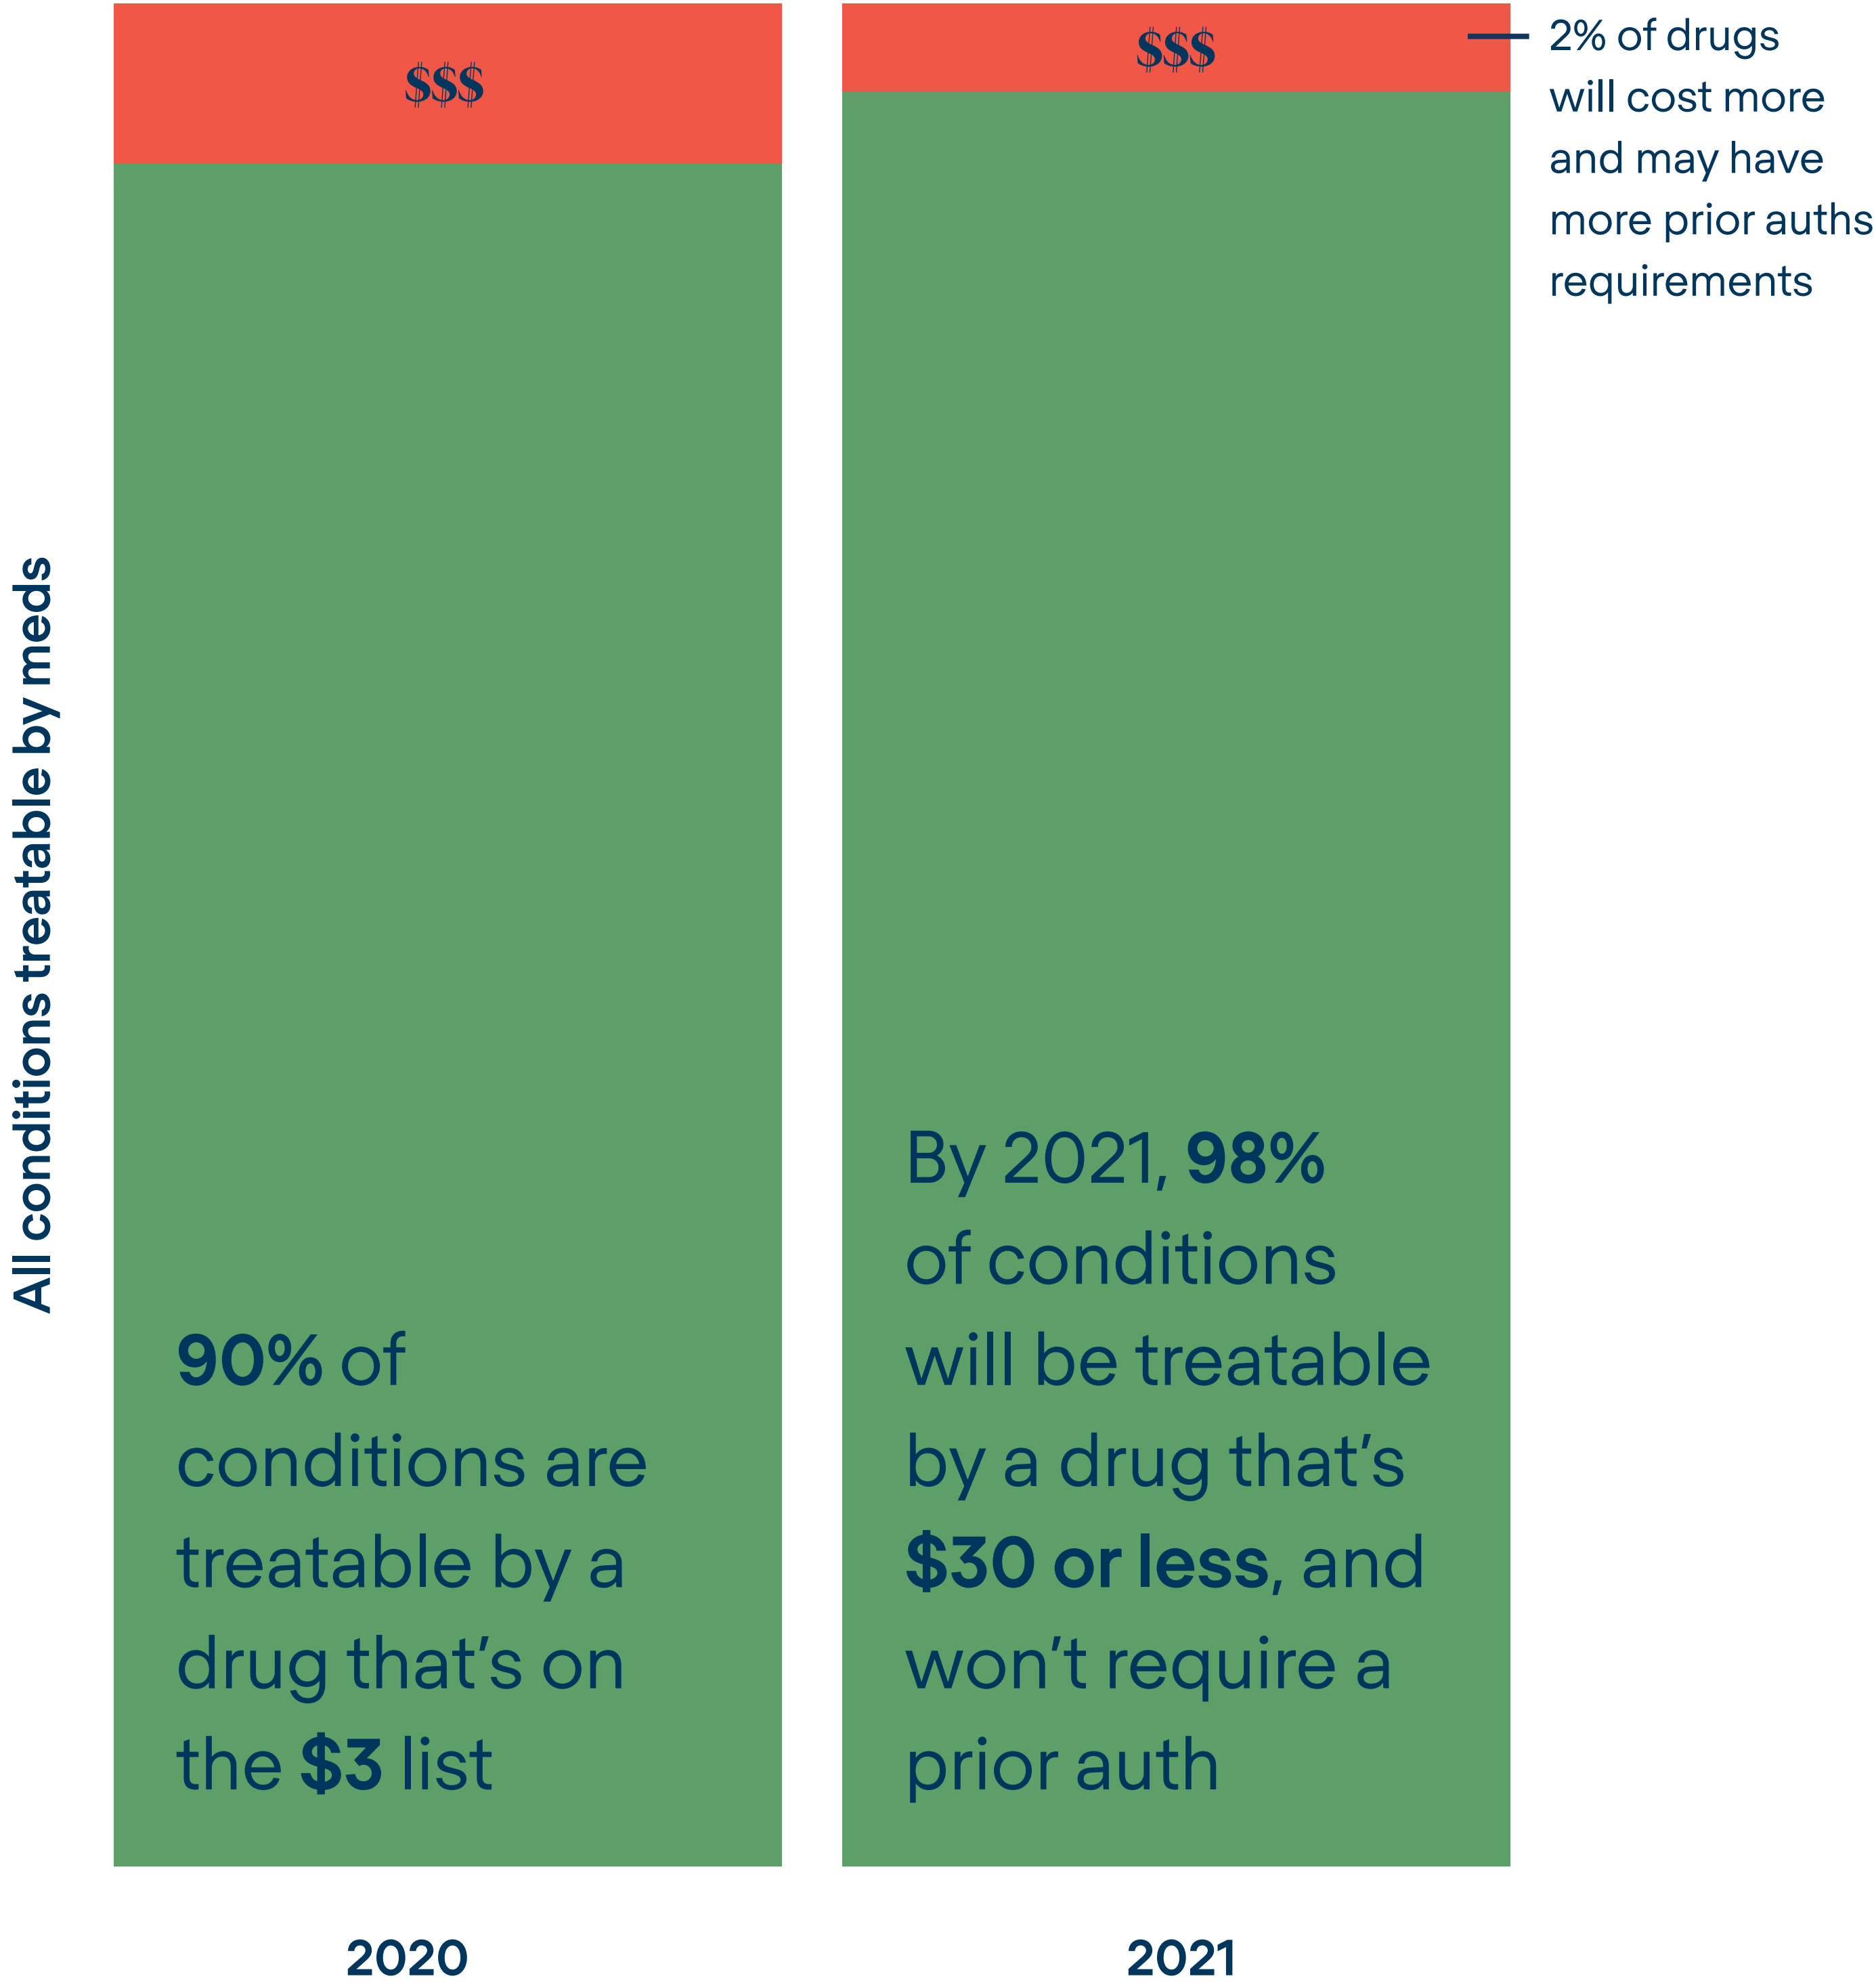

# Where to access our \$3 list

The list includes many common medications that treat diabetes, high cholesterol, mental health, migraines, and more. See the full \$3 list at [hioscar.com/3-dollar-list](https://hioscar.com/3-dollar-list). Simply bring the list to your doctor, and find out if any of our \$3 options are right for you.

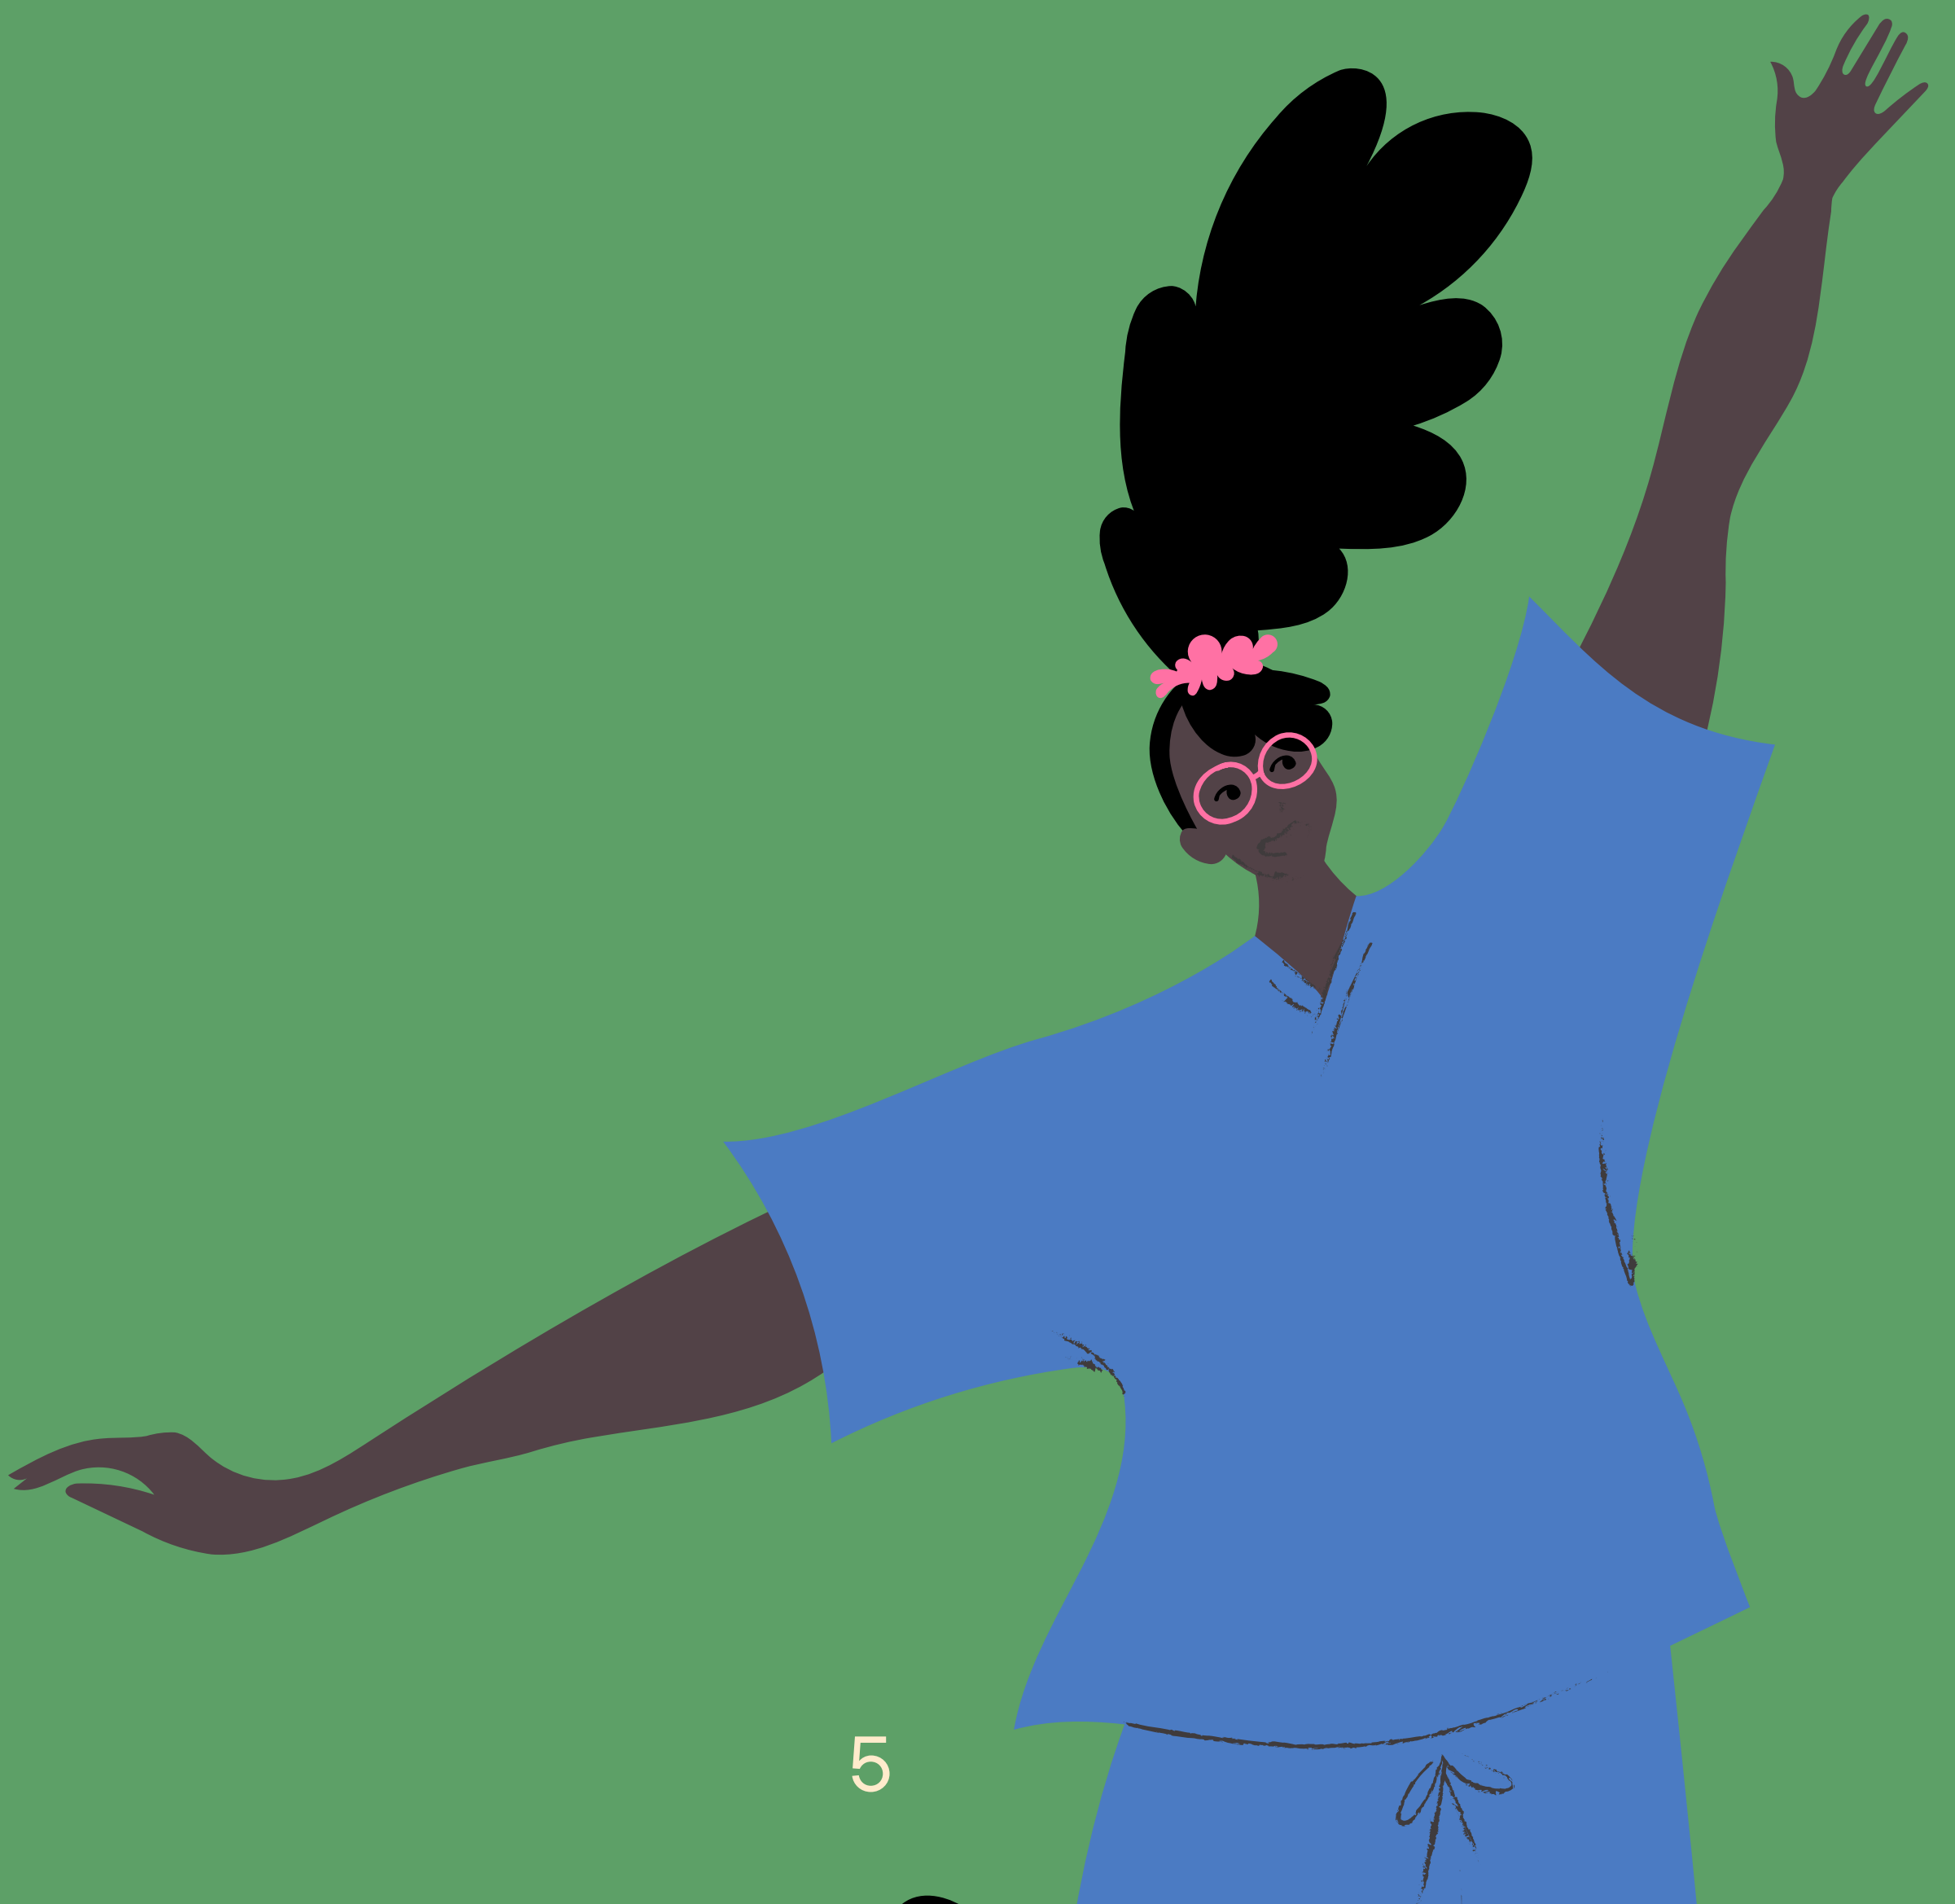

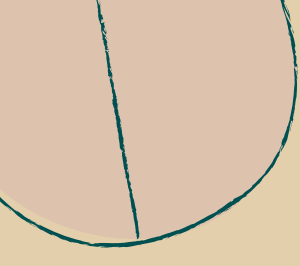

# Safe and affordable prescriptions every time

With our \$3 list, you'll always know what you're paying at the pharmacy. And no prior authorizations are needed, ever.

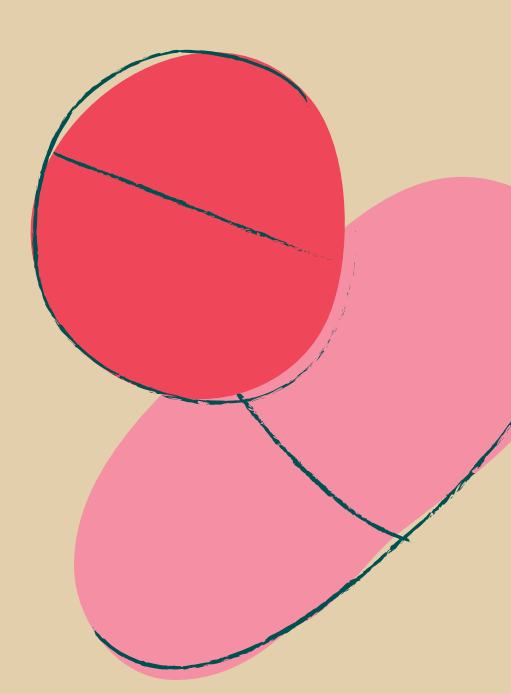

In 2021, we'll be adding more drugs to our list, including less common ones. We want to hear from you about the drugs you'd like us to add. Please email us at [rx-feedback@hioscar.com](mailto:rx-feedback@hioscar.com).

# Talking to your doctor about \$3 prescriptions

If the cost of your medication prevents you from taking it as prescribed, please tell your doctor immediately.

Send your doctor a message to ask if there's a \$3 option you can switch to, or bring the list to your next appointment and review it with your doctor. Then you can head to the pharmacy with peace of mind and no stressful surprises around cost.

You can use our list if you're taking a maintenance medication, if your doctor is prescribing something new, or if you get a diagnosis that requires a new prescription.

## How to start the conversation with your doctor

“I’d like to save money on prescriptions and know what they will cost before I go to the pharmacy. Can you tell me if there are options on this list for any of my meds?”

For the complete list, go to  
[hioscar.com/3-dollar-list](https://hioscar.com/3-dollar-list).
