Medicamentos especializados: lo que necesita saber

Algunos medicamentos requieren un poco más de coordinación, por eso los llamamos **medicamentos especializados**. Si su plan incluye una red de farmacias especializadas, asegúrese de obtener esos medicamentos exclusivamente a través de una de nuestras farmacias especializadas participantes. De esa manera, estarán cubiertos por su plan (y usted ahorrará dinero).

Vea la lista completa de medicamentos [aquí](#).

¿Qué son los medicamentos especializados?

Los medicamentos especializados son medicamentos recetados que tratan afecciones complejas, crónicas o poco comunes. Estos medicamentos a menudo requieren un manejo especial, un monitoreo clínico más cercano o incluso refrigeración.

Debido a su complejidad y costo, por lo general deben surtirse a través de una **farmacia especializada** que esté dentro de la red de su plan. Esto nos ayuda a garantizar que usted reciba el apoyo, la coordinación y los servicios de gestión de la atención médica que a menudo acompañan a estos medicamentos. Tenga en cuenta que algunos medicamentos son LDD (distribución limitada) y es posible que deban ser surtidos en una farmacia fuera de la red. ¿Preguntas? Consulte los documentos de su plan para obtener más detalles o llámenos al (855) 672-2755 de lunes a viernes, de 8 a.m. a 8 p.m.

Lista de medicamentos cubiertos
