The Oscar Broker's Circle program is granted exclusively to unique agents, and is based on individual agent production. Therefore, Agency, General Agency or FMO complete books of business cannot be used to qualify an individual agent for the program unless they are the sole agent on all policies. Retention rate is calculated off of total book size, not specifically retaining existing members. Please note that for OE23 this program is only available to Individual & Family Plan Brokers in Florida, Georgia, and Texas. Eligibility requirements are subject to change for future Open Enrollments.
