

How to use 835 ERA Capabilities

To access the ERA Enrollment Form, navigate to the "Manage Payments" page in the portal, which can be accessed from the menu on the right hand side of your screen. Make sure to check our guide on setting up your ACH payments first. Double click on your bank account that has an ERA status of "not enrolled." You will then see a status page with a button that allows you to enroll in ERA.

Reminder - You must complete ACH enrollment before beginning this process.

Step 1: Provider Contact Info

The form will be pre-populated with provider name, TIN, EIN, and NPI from the ACH enrollment form. Update the Provider Contact Information section with the appropriate information.

The screenshot shows a web browser window with the URL `hioscar.com/providers`. The page title is "Provider" and it includes navigation links for "Authorizations", "Payments", and "Claims". The main heading is "About the provider" with a link to "View a list of field definitions here".

Provider information

Provider name
Joy Lee

Provider identifiers information

Provider Federal Tax Identification Number (TIN)
23 - 4356253

Employer Identification Number (EIN)
23 - 4356253

National Provider Identifier (NPI)

There is no appropriate NPI associated with this provider or entity.

Provider contact information

Provider contact name

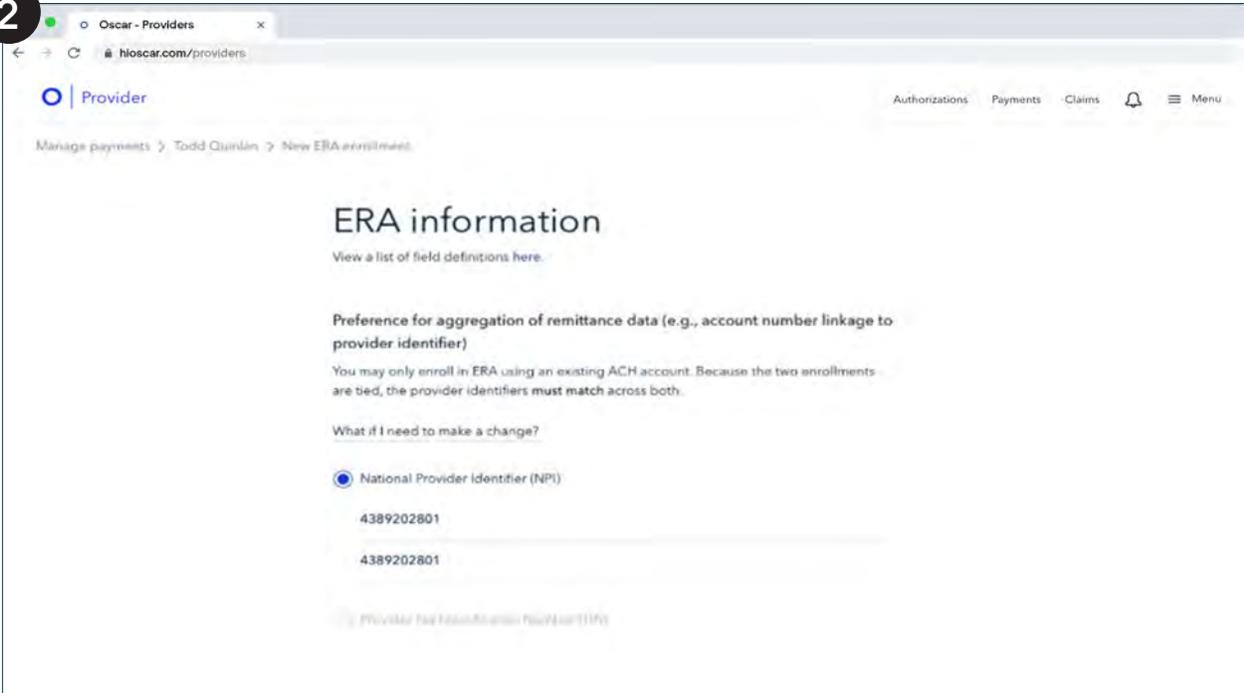

Telephone number

Telephone number extension

Step 2: Financial institution information - New

When enrolling in ERA, the preference for “aggregation of remittance data” will be pre-populated based on the ACH enrollment details for “account number linkage to provider identifier”.

Note: Once an ACH enrollment has a connected ERA enrollment, these TINs and NPIs cannot be changed. Users must add all TINs or NPIs to the ACH enrollment before enrolling in ERA. The alternative is to cancel both enrollments and start a new enrollment form.

The screenshot shows a web browser window with the URL hioscar.com/providers. The page is titled "Provider" and has a navigation menu with "Authorizations", "Payments", "Claims", and "Menu". The breadcrumb trail is "Manage payments > Todd Quinlan > New ERA enrollment". The main heading is "ERA information" with a link to "View a list of field definitions here.". Below this is the section "Preference for aggregation of remittance data (e.g., account number linkage to provider identifier)". A note states: "You may only enroll in ERA using an existing ACH account. Because the two enrollments are tied, the provider identifiers must match across both." A link "What if I need to make a change?" is provided. There are two radio buttons: "National Provider Identifier (NPI)" (selected) and "Tax Identification Number (TIN)". Below the selected radio button are two input fields, both containing the value "4389202801".

To Edit/cancel: The user cannot make any edits to the “ERA information” page. The preference for “aggregation of remittance data” will be pre-populated based on the ACH enrollment details for “account number linkage to provider identifier”.

Step 3: Submission information - New

In the ERA enrollment form, the user must note the reason for form submission and provide an electronic signature. These are fields required by CAQH.

To Edit: When editing "submission information", the user can choose to "change enrollment" or "cancel enrollment". The user must also provide an updated signature to authorize the changes to the enrollment.

Step 4: Complete application - New

Once the user completes their ERA enrollment form, they must share the Change Healthcare enrollment form with their clearinghouse. Upon completion of this step, the user must return to the enrollment details page and complete their ERA enrollment.
