“Oscar found me an amazing specialist!”

- Jessica B, Oscar member

You don’t need more doctors. You need the right doctor for you. That’s why we are dedicated to pairing you with the right provider for any need. Whether you’re using the Oscar app or website, or getting one-on-one help from your Concierge team, the best care is easy to find.

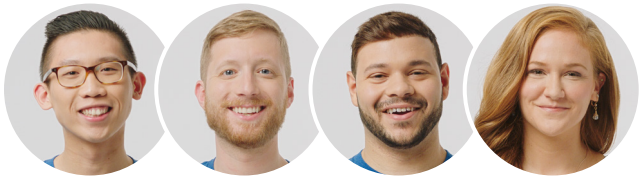

Search on the Oscar app or website.

Whether you need a primary care physician or a specialist, you can find a great in-network doctor without Googling. Use the Oscar app or website. You can filter by factors like location and experience, check your compatibility, and see other information that can help you make a decision.

- Search by symptoms, conditions, procedures, doctor specialty, or doctor name.
- Filter by area and availability.
- See results in both list view and map view.
- Learn about each doctor’s experience and specialties.

We use doctor data to find the right fit.

Your Concierge team doesn’t just find you a specialist – they find you a specialist with the exact skills and experience you need. Since they’ve been with you from the start, they already know your health history and will help you find a doctor based on factors that are important to you.

- Procedure volume
- Doctor experience
- Provider quality
- Complication rates
- Hospital quality
- Estimated costs

No referrals needed – ever. Make an appointment with any in-network doctor, including specialists, without a referral.
