

Your Office is in Oscar Health's 2025 Guided Care HMO Network.

We are excited to partner with you in 2025 to support the care of Oscar members. Learn a little more about us below:

What is Oscar?

Oscar is the first health insurance company designed to make health care simple. We've built time- saving tools and resources to help our providers and members navigate the complexities of the health care system with ease.

To learn more about working with Oscar and our Guided Care HMO plan, please view our How-To Guides and Provider Resources at hioscar.com/working-with-us.

We want to make sure you have everything you need to work with us.

Follow these simple steps to get your office ready to see Oscar HMO patients in 2025:

Create a Provider Portal account as your one-stop-shop for working with Oscar! With a Provider Portal account you can submit referrals for instant approval. You can also submit claims, view patient clinical information, submit prior authorizations and more.

Notify your providers and office staff of your 2025 participation with Oscar's Guided Care HMO Plan. Review our referral policies at hioscar.com/asset/referral-exclusions-list.

Make sure Oscar is listed as an accepted payer on any external and internal tools or patient sites (i.e. office public websites, booking tools, office intranet, Zocdoc).

Review your directory listing at hioscar.com/search and let us know if anything needs updating by reporting through your Provider Portal account or by calling us at 1-855-672-2755.

Note: Network status is subject to contractual changes. Please confirm participation by calling 1-855-672-2755 or by using the Oscar directory at hioscar.com/search.
