BYO... Doctor.

We'll create a custom Doctor Index for your company based on your employees' specific needs. Send us your list of preferred doctors. We'll confirm they're in network and recommend great alternatives if they're not. Dealbreakers? We'll take steps to bring those doctors in network.

Concierge for all.

For Employees

You shouldn't have to be a health insurance expert to navigate claims, understand what's covered, and stay on top of prescriptions – you've got your own dedicated Concierge team for that. Sure, you could figure it out yourself, but why should you have to?

For Employers

Managing company health care is a full-time job – and you've already got one. Your Business Concierge team that handles everything for you, from staying on top of regulations to handling employee claims issues. This gets you back to doing what you do best.

Trusted partners, quality network.

We've created a new model that ensures our members have access to complete coverage – from routine and preventive care to world-class specialists. Members can call on **900+ doctors** on Castle Connolly's Top Doctors list and get special discounts with partner pharmacies and services.
